Health and Wellbeing Profile: A Snapshot of Dunbar & East Linton

July 2015

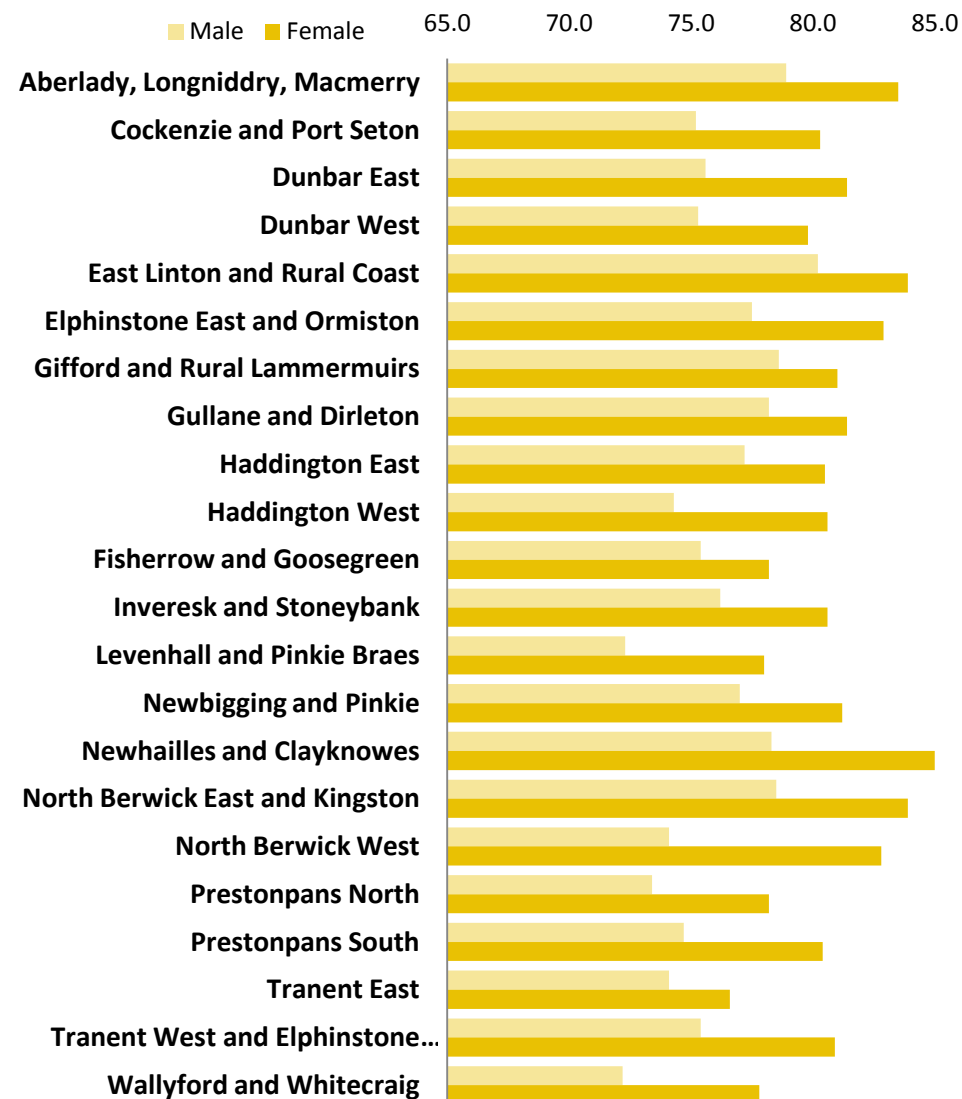

Dunbar & East Linton Health and Wellbeing Profile

The Dunbar & East Linton Health and Wellbeing Profile has been created to compliment *Dunbar & East Linton by Numbers* and *East Lothian by Numbers*. These documents, and other ward profiles, can be found at www.eastlothian.gov.uk/statisticsanddata.

This health and wellbeing profile contains a range of indicators and measures to show how health and wellbeing in Dunbar & East Linton compares to East Lothian and Scotland.

It has been compiled with data provided for the East Lothian Partnership and Dunbar & East Linton Area Partnership by ScotPHO – the Scottish public health observatory – and other sources where stated. Where data is not available below local authority level, the indicator has been omitted from this publication. Please see www.scotpho.org.uk for further details.

Life expectancy at birth by intermediate zone and sex (NRS 2013).

Domain	Indicator		Period	Dunbar & East Linton Measure	East Lothian Measure	Scotland Measure	Measure Type / Notes
Life Expectancy & Mortality	1	Male life expectancy	2007-11	78.8	78.2	76.6	Mean ^{a,h}
