

Representation 21.12.2018

46-48 High Street, Dunbar

Asset No. 1637

I would like to know why this asset is not being sold to raise funds for the running of the council. Services have been cut and more cuts are proposed due to lack of money.

People I know have made inquiries about purchasing and/or renting this property and have been told that the council was not interested in doing so. No details were taken from these people so they could be contacted in the event the council decided to sell or rent 46-48 High Street.

I do not know if transferring this asset is in the best interests of the people of Dunbar as there has been little attempt to advertise this decision or explain its merits.

I have asked many people if they are aware of this transaction and have not found one person.

Please let me know how this decision was made and why the public is not consulted.

Thank You
