

East Lothian Council

FOI Ref: 2018/304(486135)

I wish to be provided with the following information from the financial years 2014/15, 2015/2016 and 2016/17 regarding the money spent by East Lothian Council on purchasing bottled water.

East Lothian Council (ELC) does not purchase bottled water for staff use (for example: water coolers).

ELC's Facilities Management service purchases bottled water for use in packed lunches in primary schools (on Fridays and trips) and also for sale in high schools. The cost of these purchases is not recorded centrally but is retained by the relevant kitchen (there are 29 kitchens). If you require further details of these purchases, please let us know and we will be happy to make further enquiries.
