

East Lothian Council

FOI Ref: 2018/520749

I would like to request the following information:

1) The amount of burial space left in the council's cemeteries and graveyards.

2) The number of years the council estimates there are before all current available burial spaces are filled.

East Lothian Council (ELC) is currently completing a detailed audit of its remaining burial space, something which has not been done since preparation work for the Council's Burial Ground Strategy in 2013.

Please refer to Appendix I which is the list currently used by ELC staff as a convenient method of displaying site by site information. Please note that the information shown should be considered as guidance only.
