

East Lothian Council

FOI Ref: 2018/524631

Under Freedom of Information, I would like to request data on attendance levels among school pupils, for each primary and secondary school in your area, during the last week of term for the 2016-17 and 17-18 academic years. I would like the figures for both school years separately.

Please provide, for each school, the number of pupils on the school roll at that time. Please also provide the attendance rate for all pupils for both academic years for the last week, in percentage terms, for each school.

I.e if in a school of 500 pupils, 250 pupils were missing on each day in the final week of term, the attendance rate would be 50%. If 100 pupils were missing on each day, the attendance rate would be 80%.

By last week of term, I mean the final Monday to Friday period before school broke up for summer in which pupils would be expected at school, even if, for example, the school broke up on Thursday. If this was the case, the attendance rate over Mon-Thurs is fine.

If providing figures for two school years would breach the cost limit or invoke any other exemption, the figures for the most recent academic year only (17-18) would be fine.

Please refer to Appendix I overleaf.
