

East Lothian Council

EIR Ref: 2018/542770

Please see below an FOI request. I would like to know:

How many times in each of the following years has the local authority undertaken emergency repairs on residential properties.

The following table notes the number of completed emergency repairs to Community Housing units in the requested years.

| <i>Year</i> | <i>Number of completed emergency repairs</i> |
|--------------------|---|
| 2012/13 | 6,703 |
| 2013/14 | 8,079 |
| 2014/15 | 8,700 |
| 2015/16 | 9,727 |
| 2016/17 | 8,731 |
| 2017/18 | 3,256 |

Please note that from 1/4/17 the targets for emergency and non-emergency repairs were revised with all emergency repairs moving to a four hour target. This moved a number of priority jobs with a 24 hours timescale from Emergency to Non-Emergency.
