Introduction

The profile is one of six ward area profiles prepared to support the work of the East Lothian Partnership and compliment the East Lothian Profile.

It has been compiled in consideration of the priorities identified in the East Lothian Single Outcome Agreement to assist local partnerships and service providers to better understand the needs of their local areas.

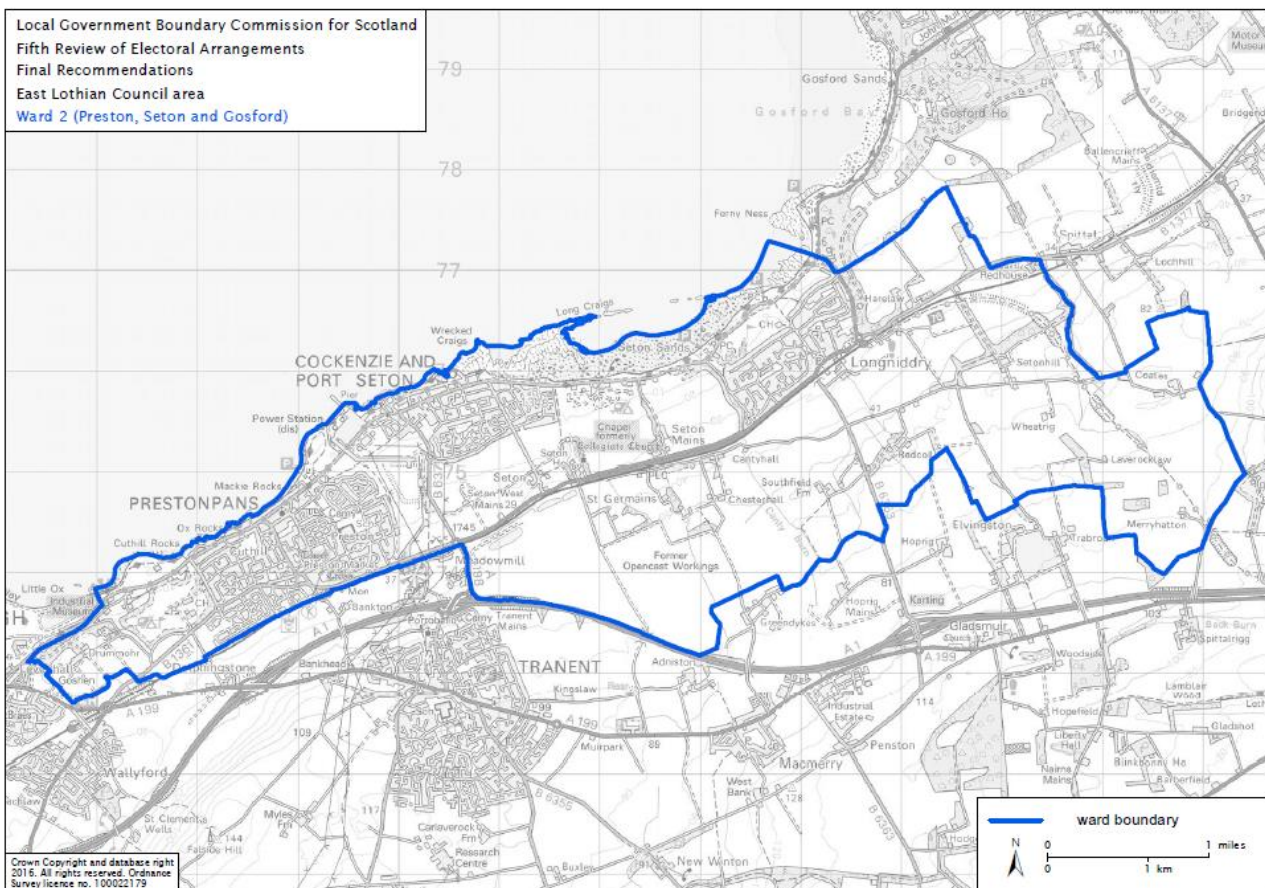

In preparing this profile every attempt has been made to use the most recent information publically available for each theme and therefore the information here has come from a variety of sources including :-

The Preston Seton Gosford Area

Preston Seton Gosford (PSG) is one of East Lothian Council's multi-member wards. It stretches along the Forth coast in the east of the county and includes the settlements of:-

Prestonpans, Cockenzie/Port Seton and Longniddry

Figure 1 - Ward Map (Local Government Boundary Commission for Scotland)

PLEASE NOTE - Throughout this profile a number of different sources have been used to gather statistical information, which each use different boundaries and area definitions. In this report:

Preston Seton Gosford or **PSG** is used to refer to the East Lothian Local Authority ward area.

Intermediate zones (sometimes referred to as Intermediate Geographies) are also used to present variations within the ward. In this case the ward is divided into the **Prestonpans North**, **Prestonpans South**, **Cockenzie/Port Seton**, and the **Longniddry/Aberlady**.

Data zones are the smallest geographic areas at which data is collected and analysed. There are 24 data zones in the Preston Seton Gosford ward.

Population

Scotland's Census 2022 states that **18,729** people live in the Preston Seton and Gosford ward,

Headlines

- 16.7% of the population of East Lothian live in this ward.
- 84.6% of the population of the ward live in Prestonpans and Cockenzie.
- Like the rest of East Lothian there are proportionally more people of pensionable age living in the ward than there is across Scotland and more children aged 0-15.
- English is the main language of 97.1% of the population in this ward, higher than the rate for East Lothian or Scotland.
- 85.8% of the population in this ward were born in Scotland - higher than the rate for East Lothian or Scotland as a whole.
- 2.4% of this ward were of a non white ethnic minority, lower than the 3.1% for East Lothian and 7.1% across Scotland.

Population Distribution

- 56.7% (10,620) of the population of the ward live in Prestonpans.
- 27.9% (5,234) reside in Cockenzie.
- 13.9% (2,599) reside in Longniddry.
- In this ward 48% are male and 52% are female.
- Like the rest of East Lothian there are proportionally more people of pensionable age living in the ward than there is across Scotland and more children aged 0-15.

Table 1 – Age Distribution (Scotland's Census 2022)

| | PSG | East Lothian | Scotland |
|---|-------|--------------|----------|
| % of the population (0-15) | 17.1% | 18.0% | 16.4% |
| % of the population that are (16-64) | 61.9% | 60.9% | 63.6% |
| % of the population that are 65 or over | 21.0% | 21.1% | 20.0% |

Country of Birth and Ethnicity

According to Scotland's Census 2022 figures:-

- 2% of the ward were born outside of Europe, lower than the 3.1% for East Lothian and lower than the 5.5% across Scotland.
- In this ward 85.8% of the population were born in Scotland compared to 80.1% of residents in East Lothian and 79.4% across the country as a whole.
- 94.6% of this ward were born in the UK, higher than the 92.6% for East Lothian and 89.8% across Scotland.

Table 2 – Country of Birth (Scotland's Census 2022)

| | Europe Total | Europe Non EU or UK | EU | UK | Scotland | Africa | Middle East and Asia | The Americas and the Caribbean | Antarctica and Oceania |
|----------------------------|--------------|---------------------|------|-------|----------|--------|----------------------|--------------------------------|------------------------|
| Preston, Seton and Gosford | 98.0% | 0.1% | 3.3% | 94.6% | 85.8% | 0.6% | 0.8% | 0.4% | 0.2% |
| East Lothian | 96.9% | 0.4% | 3.9% | 92.6% | 80.1% | 0.8% | 1.2% | 0.8% | 0.3% |
| Scotland | 94.5% | 0.4% | 4.3% | 89.8% | 79.4% | 1.3% | 3.0% | 0.9% | 0.3% |

[Search | Scotland's Census - Search by topic](#)

- 85.2% of % of people in this ward identify themselves as White Scottish – higher than the rates for East Lothian and across Scotland as a whole.
- 2.4% of people in this ward were from minority ethnic groups lower than the rate for East Lothian and across Scotland as a whole.

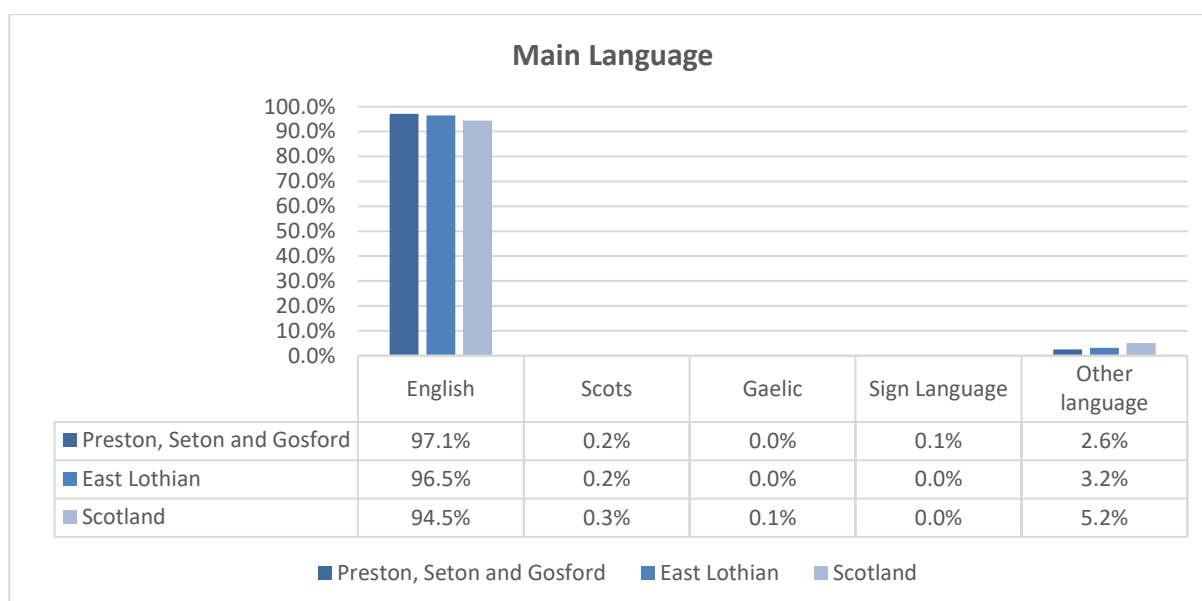

Table 3 – Ethnic identity (Scotland's Census 2022)

| Ethnicity | White Scottish | White Other | Minority Ethnic Groups |
|----------------------------|----------------|-------------|------------------------|
| Preston, Seton and Gosford | 85.2% | 12.4% | 2.4% |
| East Lothian | 79.5% | 17.4% | 3.1% |
| Scotland | 77.7% | 15.2% | 7.1% |

[Search | Scotland's Census - Search by topic](#)

English is the main language for 97.1% of all people (aged 3 and over) living in the Dunbar and East Lothian ward, higher than the 96.5% for East Lothian and 94.5% across the country as a whole.

Figure 2 – Main Language (Scotland's Census 2022)

[Search | Scotland's Census - Search by topic](#)

Religion

Across Scotland 38.8% of the population stated their religion as Christian and 2.2% identified as Muslim in Scotland's Census 2022. At the same time 51.1% of people stated that they had no religion.

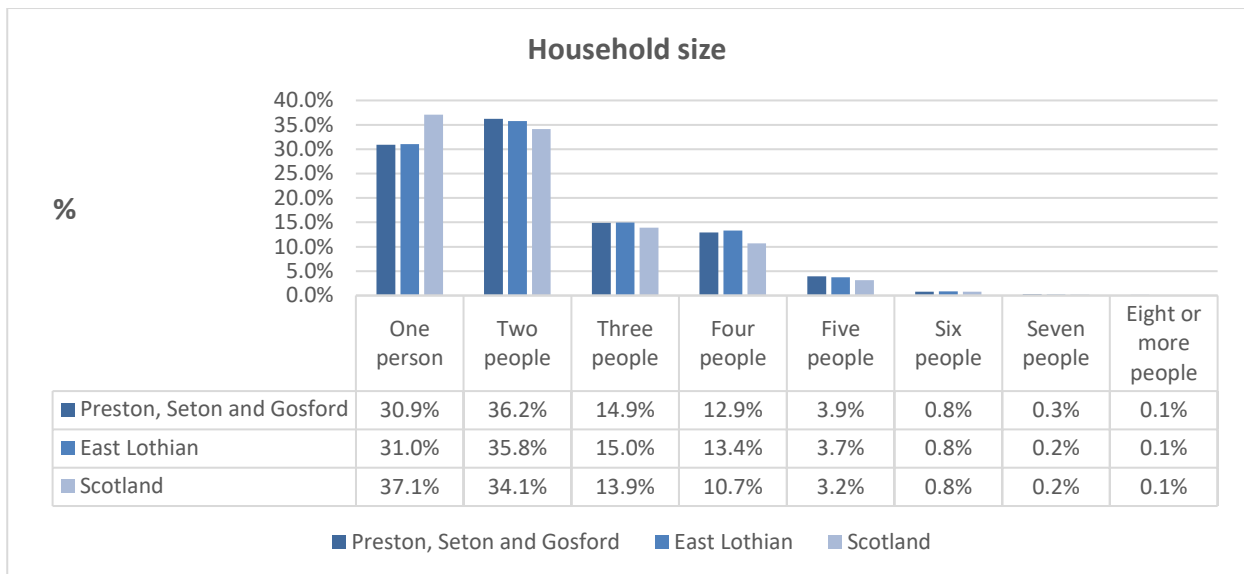

In the PSG ward:

- 36.8% of the population declared that they were Christian (East Lothian 35%).
- 0.7% reported their religion as Muslim (East Lothian 0.8%).
- 56.2% stated they had no religion (East Lothian 57.5%).

Household Size

Figure 3 shows that this ward has a similar number of people per household in all categories to that of East Lothian as a whole.

Figure 3 - Household Size (Scotland's Census 2022)

[Search | Scotland's Census - Search by topic](#)

Deprivation in the Ward

The SIMD is a tool used by the Scottish Government to identify concentrations of deprivation across Scotland in a consistent manner. It does this by dividing the country into 6,976 data zones (average 767 people per data zone).

These data zones are then ranked against key measures of deprivation – income, education, crime, health, employment, geographic access and housing – as well as by overall deprivation.

It is important to note that the SIMD only identifies concentrations of deprivation. Therefore not all people who are deprived live in a data zone highlighted by the SIMD, and not all people living within an identified data zone are deprived.

HEADLINES – Deprivation in the ward

- 3 of these data zones fall within the 20% most deprived in Scotland.
- 6 data zones in the Preston Seton Gosford ward are within the 20% most deprived in East Lothian.
- 8 data zones in the Preston Seton Gosford ward are ranked within the 20% least deprived in Scotland and East Lothian.

The map below) shows all of the data zones in the Preston Seton Gosford ward and illustrates their ranking out of the 6,976 data zones in Scotland. It can be used to identify geographic clusters of relative deprivation in the ward.

Figure 4 – SIMD 2020 Overall Deprivation in the Preston Seton Gosford ward (East Lothian Council)

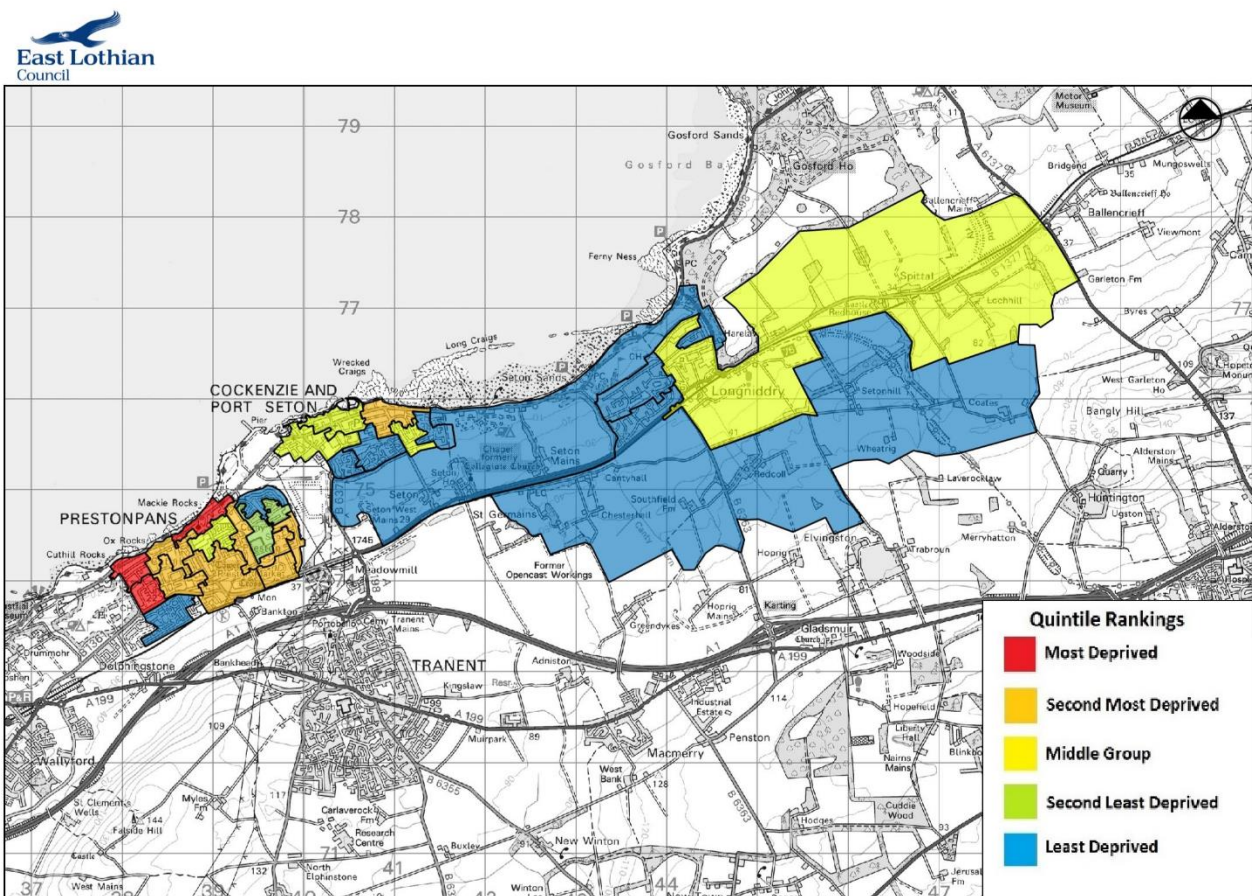

Table 4 shows that:

- 3 of these data zones fall within the 20% most deprived in Scotland.
- 6 data zones in the Preston Seton Gosford ward are within the 20% most deprived in East Lothian.
- 8 data zones in the Preston Seton Gosford ward are ranked within the 20% least deprived in Scotland and East Lothian.

[Scottish Index of Multiple Deprivation 2020 - gov.scot](https://gov.scot/national-statistics/scottish-index-of-multiple-deprivation-2020)

Income and Employment

Although East Lothian is generally considered to be an area of high employment and general affluence there is considerable variation in economic activity, unemployment and the financial position of households between and within East Lothian's wards.

This section concentrates on income and employment figures across the ward in relation to East Lothian averages as well people's perceptions of their own financial position.

HEADLINES – Income and Employment

- Approximately 9% of the population of the working age population of this ward is considered to be employment deprived, compared to East Lothian (8.1%) and Scotland (9.3%).
- The proportion of the population considered to be employment deprived in the ward ranges from 2% to 18%.
- Approximately 10.9% of the population in this ward are considered to be income deprived, compared to the overall East Lothian rate of 10.2% and Scotland 12.1%.
- The proportion of the population that are considered to be income deprived in the ward ranges from 2% to 27%.
- 14.3% of the working age population in this ward claimed universal credit in September 2024 higher than the pre Covid figure of 8.9% in February 2020.

Employment Patterns in the Ward

Figure 5 shows that the breakdown of employment across different industry sectors in the Musselburgh ward was generally comparable with the rest of East Lothian.

In this ward a higher percentage of people worked within public administration/defence /compulsory social security and construction than across East Lothian.

In relation to employment across Occupational Groups Figure 6 shows that less people in this ward were employed in Professional occupations and more were employed as process plant and machine operatives than across East Lothian as a whole.

Figure 5 - Employment by Industry (Scotland's Census 2022)

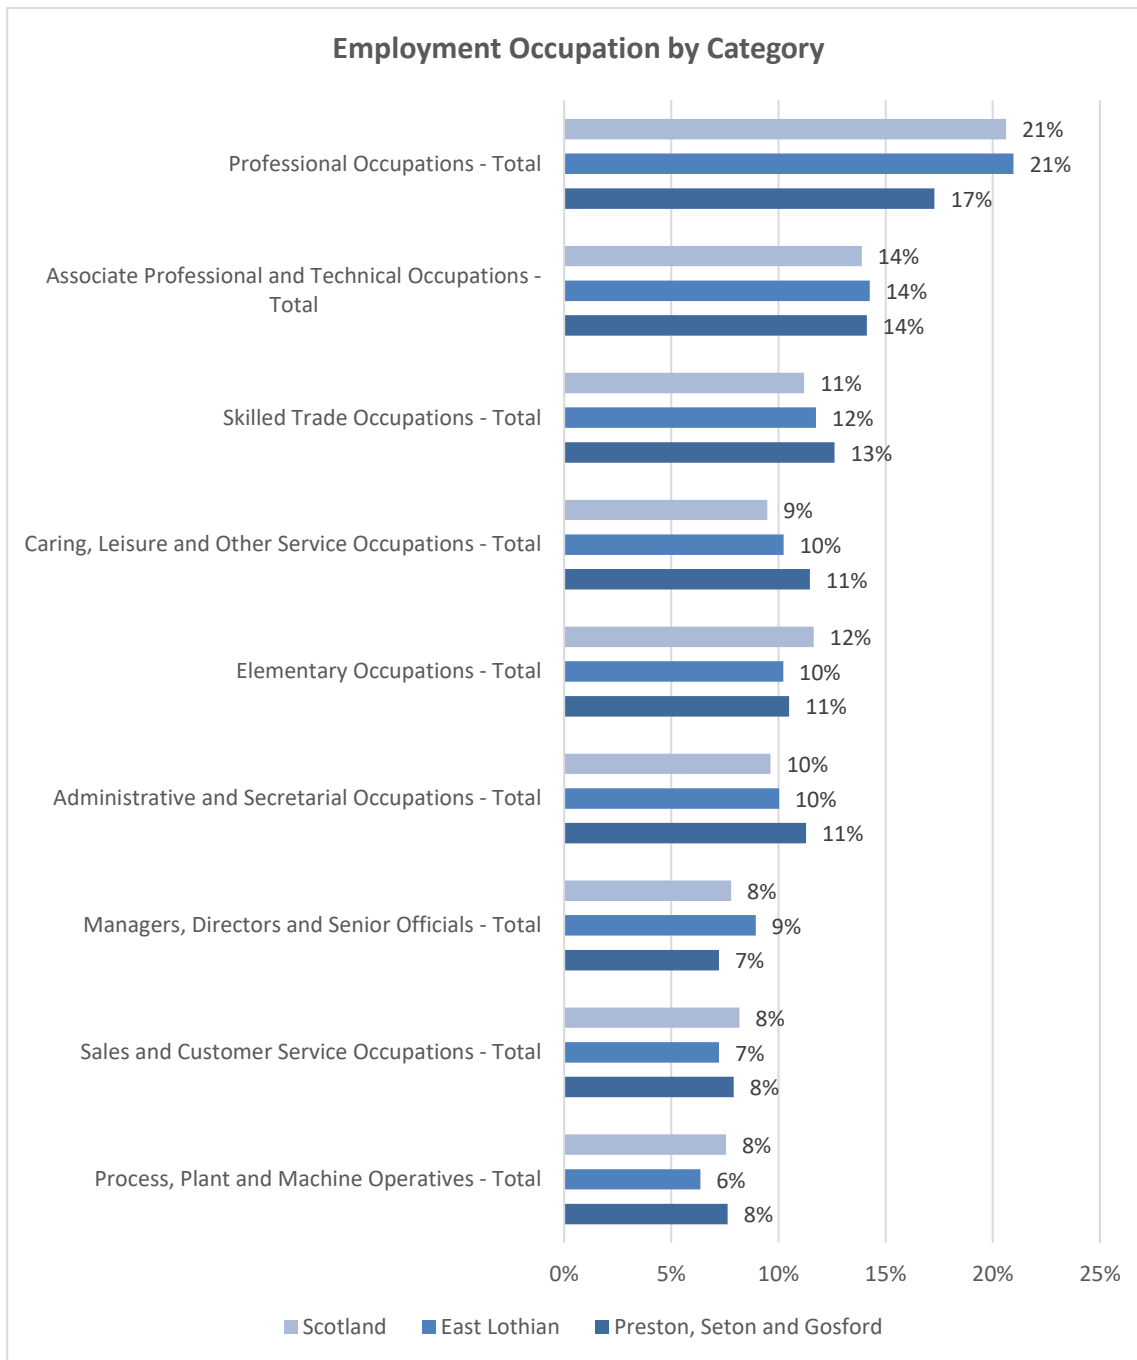

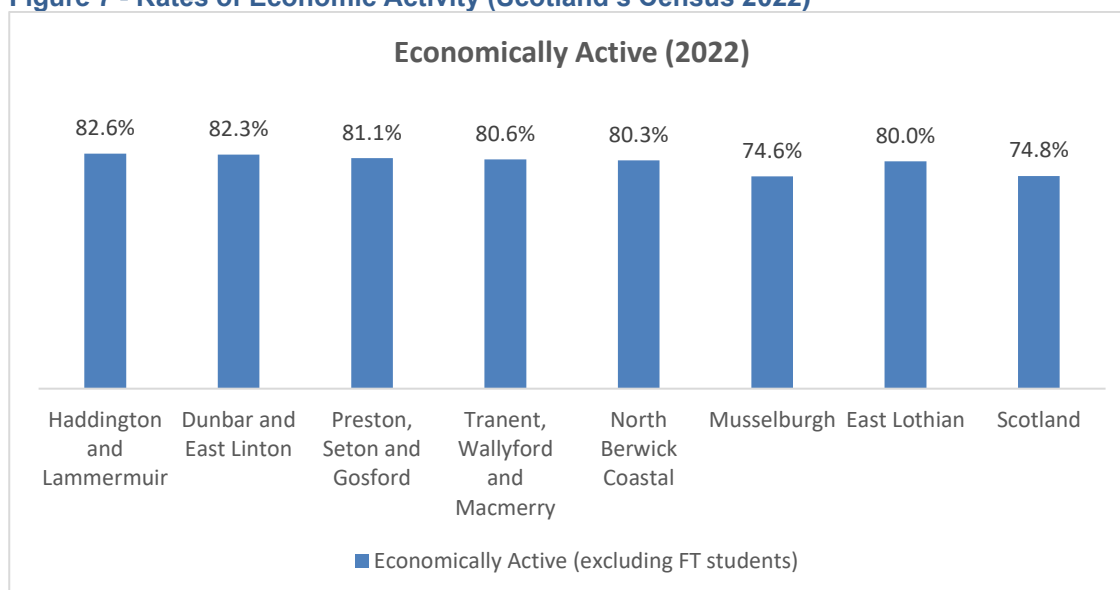

Figure 6 - Employment across Occupational Groups (Scotland's Census 2022)

Economic Activity in the Preston Seton Gosford Ward

Figure 7 shows that rates of economic activity across East Lothian were higher than across Scotland as a whole. 81.1% of the working age population were economically active in this ward, higher than the East Lothian figure of 80%.

Figure 7 - Rates of Economic Activity (Scotland's Census 2022)

Employment Deprivation

The SIMD Employment Domain is based on the following methodology:

- Unemployment Claimant Count averaged over 12 months
- Working Age Incapacity Benefit or Employment Support Allowance recipients
- Working Age Severe Disablement Allowance recipients

- Approximately 9% of the working age population of the Preston Seton Gosford ward is considered to be employment deprived.
- The proportion of the population that is employment deprived in the ward is higher than East Lothian rate (8.1%) and lower than the figure for Scotland (9.3%).
- The proportion of the population considered to be employment deprived in the ward ranges from 2% in Longniddry West/Kings Road to 19% in High St East/ Robertson Ave Prestonpan.
- 4 data zones in the ward are within the 20% most employment deprived in Scotland.

Table 8 - Employment Deprivation (SIMD2020)

| Data Zone | Data Zone Name | Employment rank 2016 | Employment rank 2020 | Employment rate 2016 | Employment rate 2020 |

[Scottish Index of Multiple Deprivation 2020 - gov.scot](https://gov.scot/Scottish-Index-of-Multiple-Deprivation-2020)

Universal Credit

Universal Credit supports people who are on a low income or out of work, its aim is to ensure that people are better off in work than on benefits. Universal Credit gives support to people to prepare for work, move into work, or earn more. It is the recipient's responsibility to do everything they can to find work or increase their earnings.

Universal Credit replaces:

- Income-based Jobseeker's Allowance
- Income-related Employment and Support Allowance
- Income Support
- Working Tax Credit
- Child Tax Credit
- Housing Benefit

Table 9 shows that 14.3% of the working age population in this ward claimed Universal Credit in September 2024, which is below the East Lothian average of 14.8% (Scotland 16.4%). The current number of people on Universal Credit in this ward is 63% higher than the pre covid figure of 1020 in February 2020. Across the county there has been an increase of 73.8% compared to 121.9% nationally. The level of claimants in East Lothian and Scotland has been increasing steadily since May 2022, and is now at the highest level since lockdown.

Table 10 shows that 2% of the working age population in this ward were searching for work in September 2024, lower than the 2.2% for East Lothian and 3% for Scotland. The current number of people searching for work in this ward is 19.3% lower than the pre covid figure of 80 in February 2020. There were 9.3% fewer claimants in East Lothian when compared to the pre covid figure, whereas Scotland increased by 7.0%.

How is the ward coping financially?

Estimated household income varies across the ward, with a gap of £566 per week between the most affluent data zone and the least.

11 of the 24 Preston Seton Gosford data zones have median, or middle of the range, household incomes above the East Lothian data zone average.

Figure 8 - Median Household Income (Scot.Govt)

[Banded income statistics: 2018 - gov.scot \(www.gov.scot\)](http://www.gov.scot/banded-income-statistics-2018)

Figure 9 shows that 41% of respondents in the Dunbar & East Linton ward said that they were “Managing very/quite well” compared to the East Lothian figure of 45%. 42% in this ward said they were getting by alright, higher than the 38% across East Lothian.

Figure 9 - How households are managing financially (East Lothian Residents Survey 2024)

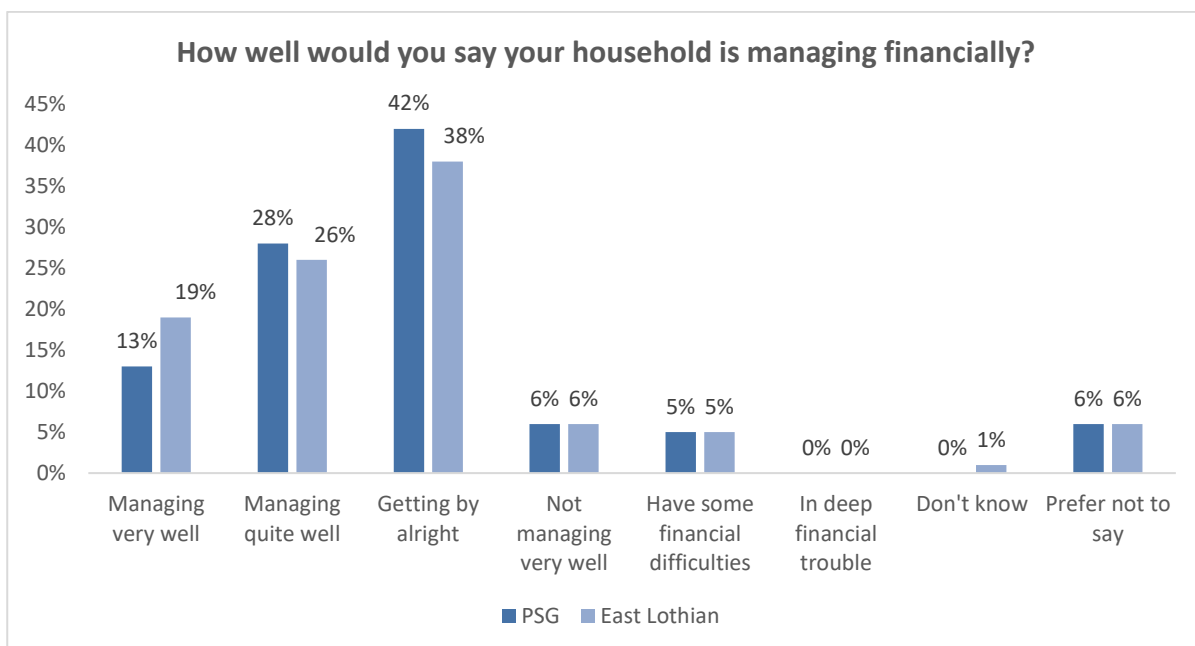

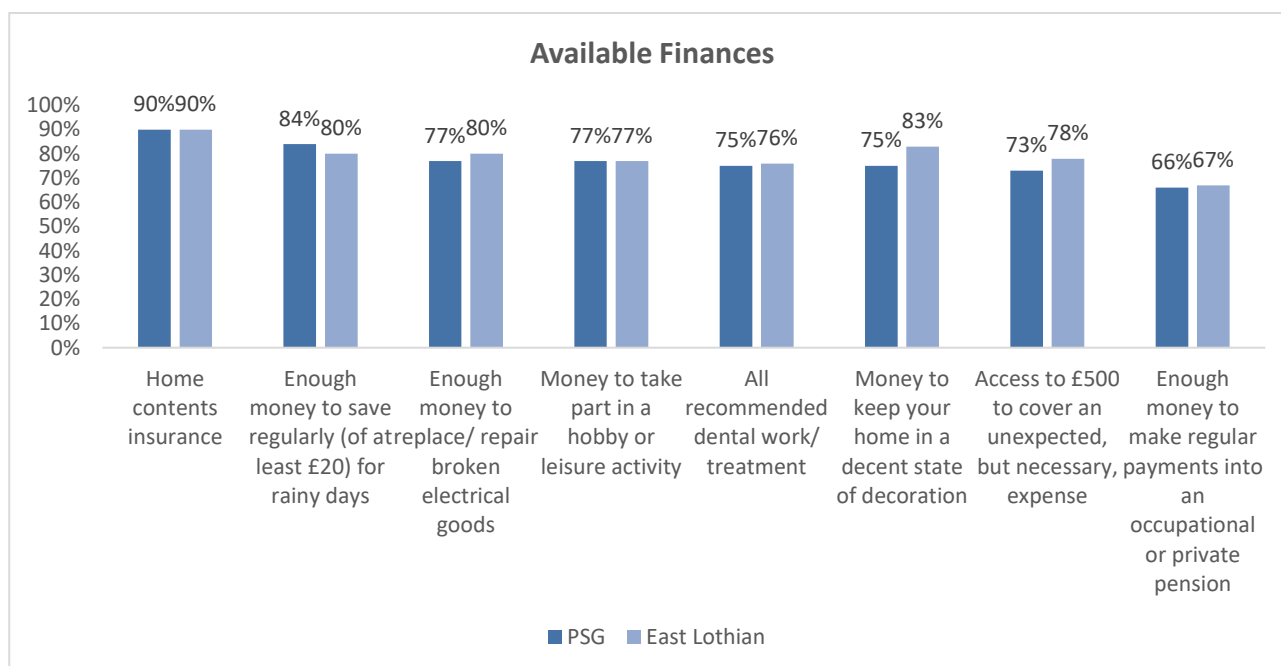

Figure 10 shows that the PSG residents had more available money for Home Contents insurance when compared to the other categories. Having money available for a private pension was the lowest affordable category for both this ward and across East Lothian as a whole.

Figure 10 – Available Finances (East Lothian Residents Survey 2024)

Income deprivation

The SIMD Employment Domain is based on the following factors: Income Support and Income-based Employment Support Allowance claimants (16-59); Job Seekers Allowance and Guaranteed Pension Credit Claimants (all ages); Universal Credit claimants with no employment marker; number of children in JSA, IS or ESA households; number of adults and children dependent on adults in receipt of Tax Credits

- 10.9% of the population of the Preston Seton Gosford Ward are considered to be income deprived in 2020.
- The proportion of the population that is income deprived in the Preston Seton Gosford Ward is higher than that of East Lothian (10.2%) although it is lower than Scotland as a whole (12.1%).
- Across the 24 data zones in the Preston Seton Gosford ward the proportion of the population that are considered to be income deprived ranges from 2% to 27%.

Table 11 - Income deprivation (SIMD)

Education and Training

HEADLINES – Education and Training

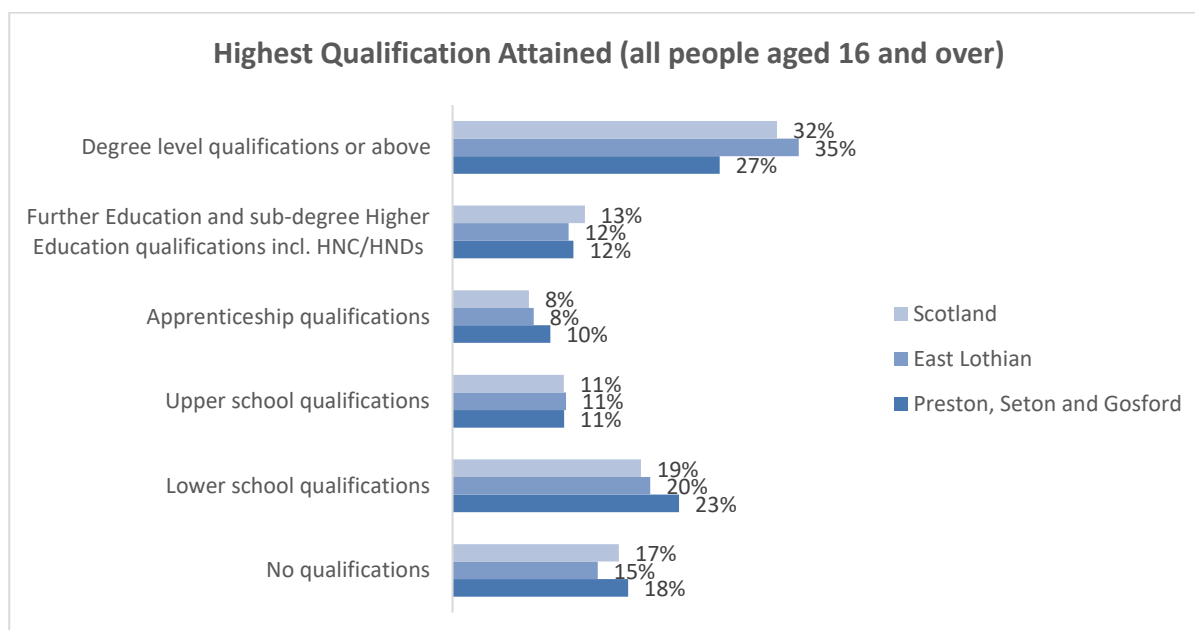

- 49% of people in this ward aged 16 and over have an apprentice qualification, further education qualification or degree level or above qualification (lower than the East Lothian figure of 54%).
- 7 data zones in this ward are within the 20% most deprived in Scotland in terms of the Education domain.
- 3 data zones in this ward are ranked within the 20% least educationally deprived in Scotland.
- 79% of Preston Lodge High pupils achieved SCQF Level 5 or better, higher than the 82% for East Lothian and 88% for Scotland.
- The 87% Preston Lodge attendance rate was higher than 86% across East Lothian and similar to the 87.1% for Scotland.
- 96.1% of school leavers from Preston Lodge High were initially assessed as having a 'positive destination' upon leaving school.

Education and Training among adults

According to the 2022 census:

- 49% of people in this ward aged 16 and over have an apprentice qualification, further education qualification or degree level or above qualification (compared to the East Lothian figure of 54%).
- 27% have undertaken a degree level or above qualification (compared to 35% across East Lothian).
- 18% have no formal qualifications (below the East Lothian figure of 15%).

Education, Skills and Training Domain

The SIMD Education Domain includes indicators that measure both outcomes of education deprivation, such as lack of qualifications in children and adults, and causes of education deprivation such as absenteeism and lack of progression to further and higher education.

The Education Domain gives an education deprivation rank using the following indicators:

- School pupil attendance
- School pupil performance
- Working age people with no qualifications
- 17-21 year olds enrolling into full time higher education
- School leavers aged 16-19 not in education, employment or training

Table 12 shows the levels of Education, Skills and Training in PSG by SIMD data zone:

- 7 data zones in the ward are amongst the 20% most educationally deprived in Scotland, 5 of which are in the 10% most educationally deprived.
- 3 data zones in the ward are amongst the 20% least deprived in Scotland.

Table 12 - SIMD Education, Skills and Training domain (SIMD)

| Data_Zone | Data Zone Name | Education SIMD2020 rank | Education domain 2016 rank | East Lothian Education Rank 2020 |

Health and Social Care

HEADLINES – Health and Social Care

- Life Expectancy for males and females in Prestonpans East and Prestonpans West is below the East Lothian average.
- Across this ward the majority of people (72%) described their physical health as Very Good/Good, compared with the East Lothian figure of 63%.
- 72% of respondents in this ward stated their mental health as very good/good (East Lothian 71%).
- No data zones in the ward are in the 20% most deprived in Scotland in terms of the SIMD2020 health domain.

- East Lothian has a life expectancy above the national average for males and females.
- Life Expectancy for males and females in Prestonpans East and Prestonpans West is below the East Lothian average.
- The variation in life expectancy across the ward’s intermediate zones is 5.7 years for males and 2.8 years for males.
- Females life expectancy was 5.5 years higher than male life expectancy in Prestonpans East, the highest difference of all the ward’s intermediate zones.

Table 17 – Life Expectancy

IZ:-2017 to 2021 (5 year aggregate). East Lothian & Scotland:- 2020 to 2022 (3 year aggregate)

| Life Expectancy | Cockenzie | Longniddry and Aberlady | Prestonpans East | Prestonpans West | East Lothian | Scotland |
|-----------------|-----------|-------------------------|------------------|------------------|--------------|----------|
| Female | 83.8 | 83.8 | 82.2 | 81.0 | 82.4 | 80.7 |

SIMD Health Domain

SIMD Health Domain

The health domain identifies areas with a higher than expected level of ill health or mortality given the age-sex profile of the population.

The Health Domain gives a Health deprivation rank using the following indicators:

- Standardised Mortality Ratio
- Hospital Episodes Related to alcohol use
- Hospital Episodes Related to drug use
- Comparative Illness Factor
- Emergency admissions to hospital
- Proportion of population being prescribed drugs for anxiety, depression or psychosis
- Proportion of live singleton births of low birth weight

No data zones in the ward are in 20% most deprived in Scotland in terms of the SIMD 2020 health domain.

8 data zones in then ward are in the 20% least deprived in terms of the SIMD 2020 health domain in Scotland, 2 of which are in the 10% least deprived health domain

Table 19 – PSG SIMD Health Domain

Early deaths across the ward are illustrated in Figure 15

- Early deaths for cancer and CHD in East Lothian are below the Scottish rate.
- Early deaths from cancer in Prestonpans East, Prestonpans West and Cockenzie were above the East Lothian rate.
- Early deaths from CHD were above the East Lothian rate in Prestonpans West and Cockenzie.

Figure 15 - Early deaths from cancer & CHD (2019 to 2021, 3 year aggregate)

[ScotPHO profiles \(shinyapps.io\)](https://shinyapps.io/ScotPHO_profiles)

Maternity and Child Health

Maternal and child health data in East Lothian is consistently better than the Scottish average. There is however, variation across the wards and intermediate zones.

- East Lothian had higher percentages in all categories when compared to Scotland, with the exception of Healthy birth weight
- Cockenzie had higher or equal rates to those of East Lothian in all categories
- Breastfeeding, child dental health P1, and child healthy weight were lower than the East Lothian rate in Longniddry, Prestonpans East and Prestonpans West.
- Healthy birth weight in all of this ward's intermediate zones was above the East Lothian rate

Table 20 – Breastfeeding (18/19 to 20/21), Child dental health (22/23), Healthy birth weight (20/21)

| Preston, Seton and Gosford (IZ's) | Cockenzie | Longniddry & Aberlady | P/pans East | P/pans West | East Lothian | Scotland |

Young People's Attitudes to Health

2023/24 Students Evaluation of Experience Survey:

For all measures, Prestonpans schools had lower S4 scores, and higher S2 & P6 scores when compared to East Lothian as a whole.

Table 21 – Young Peoples Attitudes to Health (SEE Survey Results 2023/24)

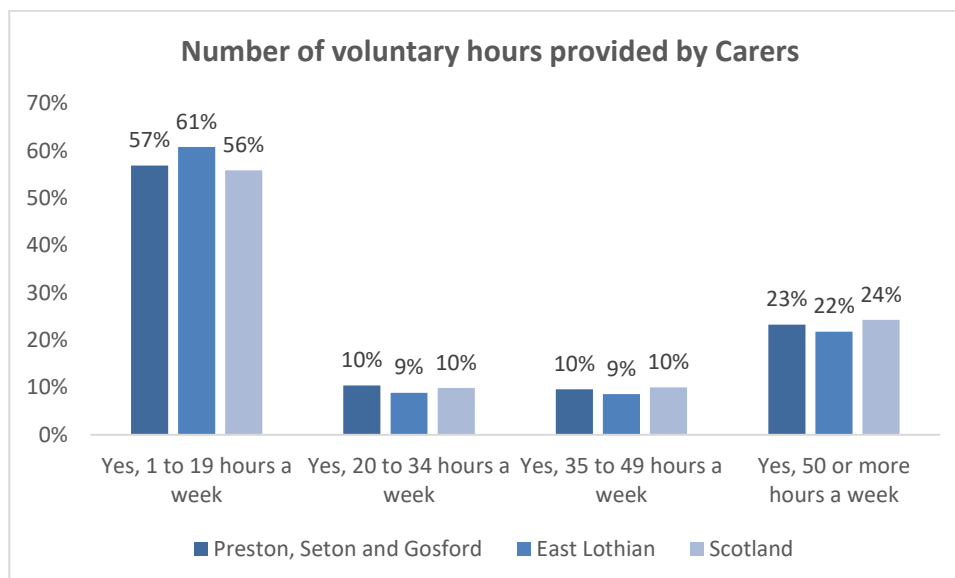

| SEE Survey Results (April 2023-24) | Stage | Dunbar | Haddington | Musselburgh | North Berwick | Prestonpans | Tranent | East Lothian |

Care and Social Care

According to the 2022 Scotland census:

- Across the Preston Seton Gosford ward 2,328 people (12% of the population) provided unpaid care to a friend or family member
- 23% of these carers were providing more than 50 hours of care per week

Figure 16 – Voluntary hours of care provided (Scotland Census 2022)

Older people

Older people make up a growing segment of the population. The 2018 based population projection shows that the 19.9% of the population in this ward were aged 65 and over, and 8.7% were aged 75 and over in 2018, this is projected to increase to 26.1% and 11.6% respectively in 2030.

In 2022, East Lothian had an estimated 2104 people with dementia. Of those diagnosed in 49% were aged between 75-84, with 58% living in the West of the county, and 42% in the East. Statistics also indicated that, in line with national trends, there is a higher prevalence of dementia in women, than in men.

East Lothian Health and Social Care Partnership has developed a dedicated dementia strategy providing a clear strategic framework to improve the offer and provision of dementia services across East Lothian in line with local need.

The strategy sets out the needs and intended actions to help support people living with dementia and their families covering information provision, diagnosis and post diagnostic support, dedicated support for carers, expanding community connections, maintaining independence, transport, housing, staying safe and understood as well as care services and end-of-life care.

[East Lothian launches dedicated dementia strategy | East Lothian Council \(East Lothian Council\)](#)

Day Centres are among the services across East Lothian that support older people to remain in their own homes for as long as possible by providing respite for families and carers and stimulating activities for individuals designed to help reduce social isolation and improve mental wellbeing.

- There are two Older People’s Day Centres in Preston Seton Gosford:- Harlawhill in Prestonpans and the John Bellany centre in Port Seton. Each centre offers 90 full day places per week for older people, benefitting an average of 65 people per week in each area.
- There is also a Lunch Club – The Link – running in Prestonpans on Mondays, Wednesdays and Fridays which offers 30 places a week.

Table 22 – Population Projections for Older People (2018 based ward population projections (Improvement Service))

| Preston Seton & Gosford | 2018 | 2020 | 2022 | 2024 | 2026 | 2028 | 2030 |
|---|--------------|--------------|--------------|--------------|--------------|--------------|--------------|
| 65 and over | 3,583 | 3,711 | 3,844 | 4,034 | 4,282 | 4,474 | 4,687 |
| 75 and over | 1,557 | 1,621 | 1,730 | 1,855 | 1,952 | 2,002 | 2,085 |

[Sub-Council Area Population Projections | Improvement Service](#)

Neighbourhood and Place

HEADLINES – Neighbourhood and Place

- The 2024 East Lothian Residents Survey showed that 92% of people in this ward rated their neighbourhood as a ‘fairly good’ or ‘very good’ place to live.
- Road and pavement repair was the top priority for improvement in this ward and across East Lothian as a whole.
- 13% of respondents in the ward felt that they could influence decisions in their local area compared to 12% for East Lothian as a whole.
- 49% reported that they would like to be more involved in Council decisions affecting their area, the same as the figure for East Lothian as a whole.

The 2024 East Lothian Residents Survey showed that 92% of respondents in the PSG ward rated their neighbourhood as a ‘fairly good’ or ‘very good’ place to live, similar to the 93% across East Lothian as a whole.

Figure 17 - Perception of their neighbourhood (East Lothian Residents Survey 2024)

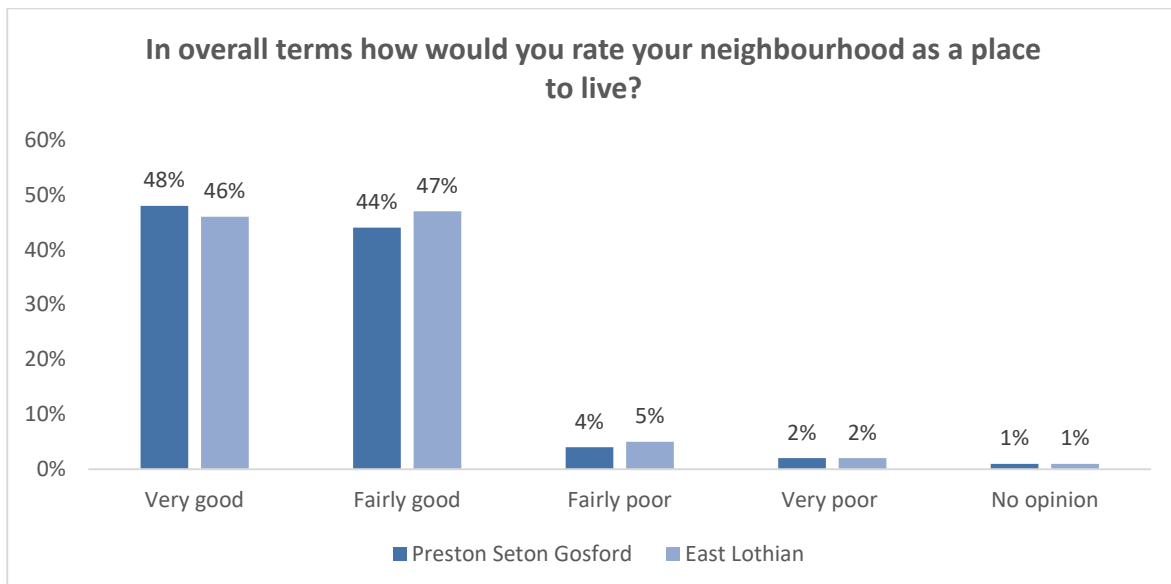

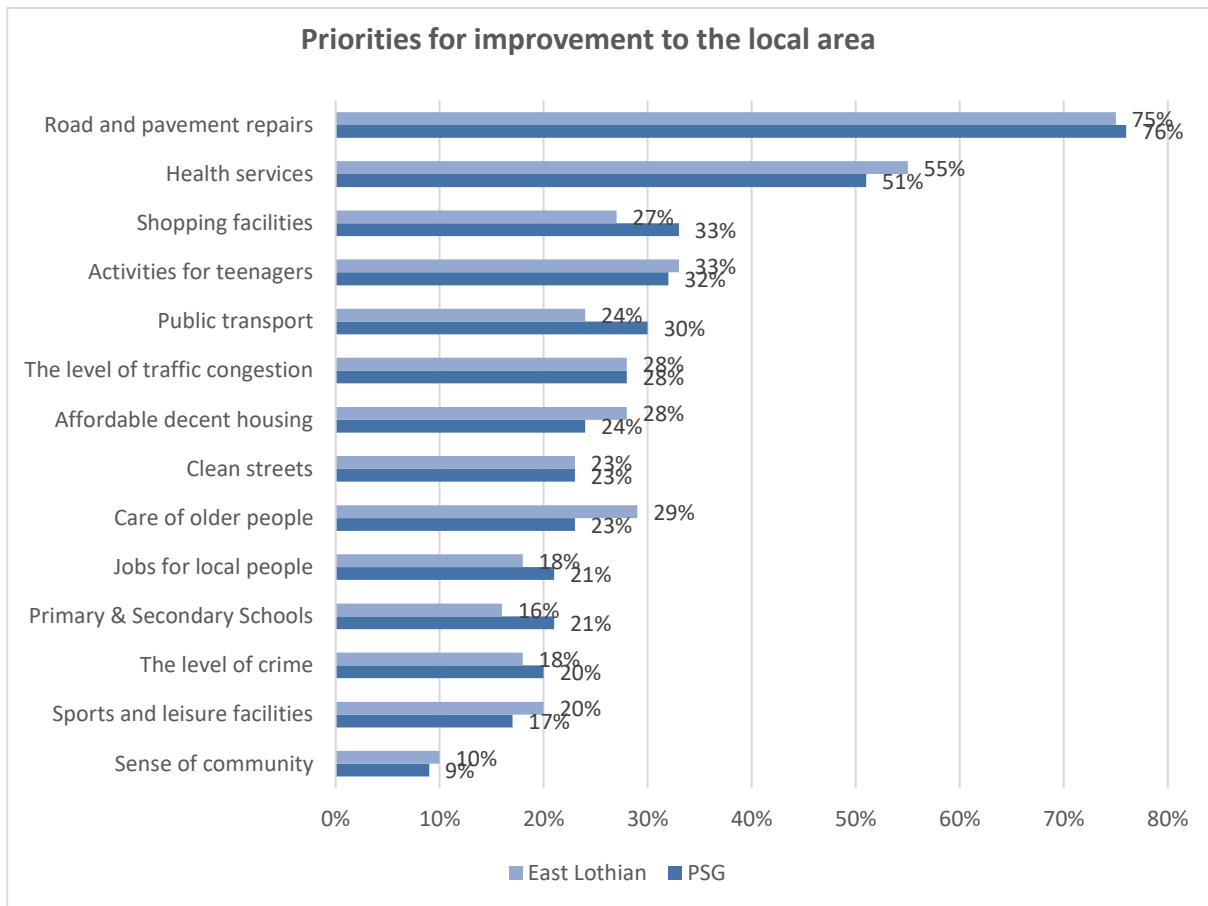

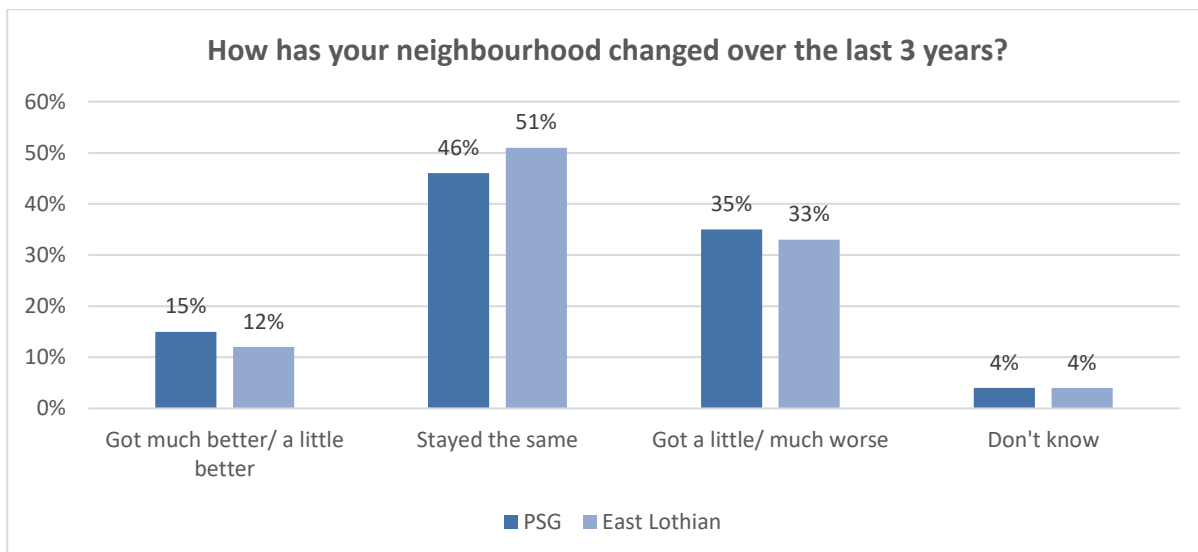

Figure 18 below shows that road and pavement repairs was the top priority for improvement in this ward and across East Lothian as a whole. A sense of community was the lowest priority for both the ward and county.

Figure 18 - What makes somewhere a good place to live (East Lothian Residents Survey 2024)

The East Lothian Residents' Survey (2024) also asked people how they felt their neighbourhood had changed over the last 3 years. More people in this ward stated that things had got much better/a little better than across East Lothian as a whole.

Figure 19 - Perceived change in local neighbourhoods (East Lothian Residents Survey 2024)

Local High Streets

Each of East Lothian’s wards is centred around a main town which is expected to provide retail and other key services to the community.

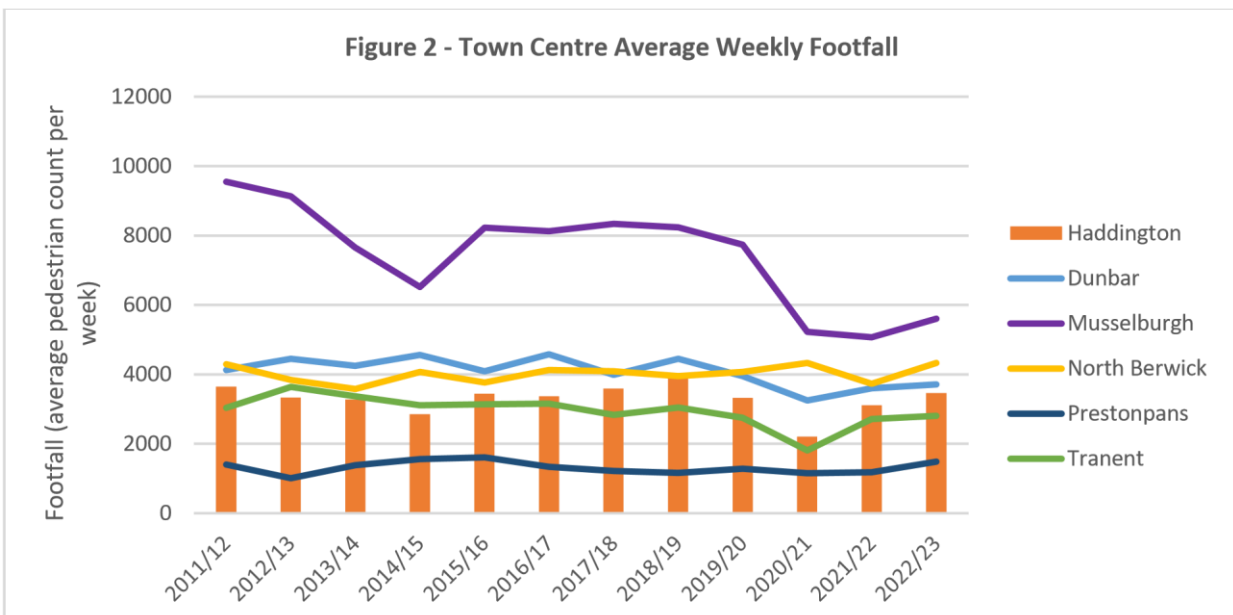

Vacancy rates (measured as a percentage of available retail units in the area) are a key indicator of the ‘health’ of local High Streets.

Figure 20 - Town Centre Vacancy Rates (Local Development Plan 2 – Town Centres and Retailing Issue No.16 East Lothian Council)

Pedestrian counts are undertaken annually in each town centre to establish weekly footfall rates for East Lothian’s High Streets. The observations are November based and are not reflective of seasonal differences.

Figure 21 - Town Centre Footfall (Local Development Plan 2 – Town Centres and Retailing Issue No.16 East Lothian Council)

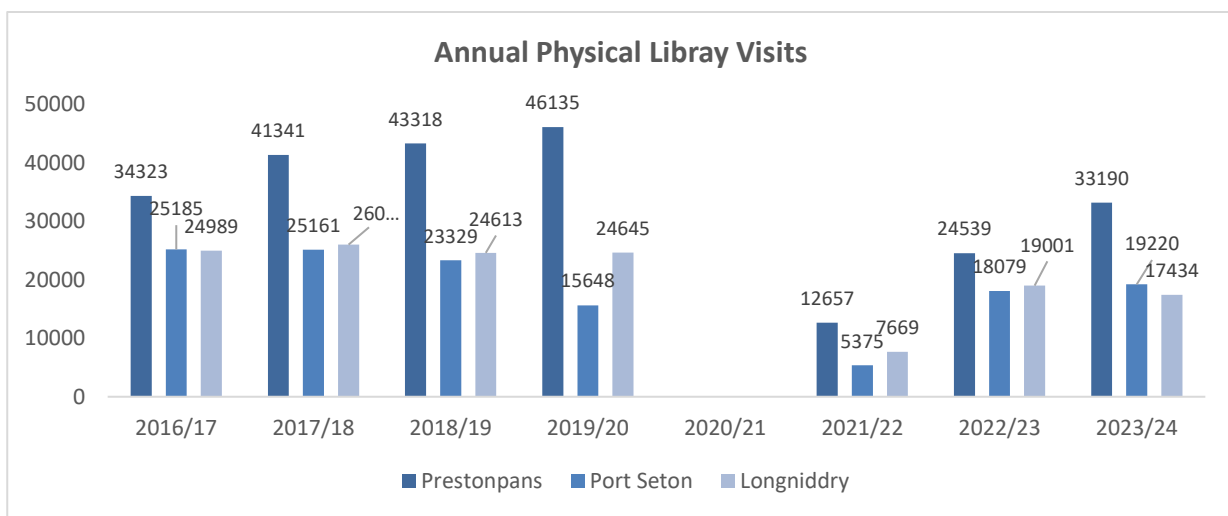

Library Visits

There are three East Lothian Council Libraries located across the Preston Seton Gosford area – Prestonpans Library, Port Seton and Longniddry Library. East Lothian Council’s usage figures show that:

- Despite increasing over the last 3 years, visits to Prestonpans Library are below the pre covid levels, with the 33,190 visits in 2023/24 being 28% lower than the 46,135 in 2019/20.
- Visits to Port Seton Library in 2023/24 increased by 6% when compared to the previous year. The 19,220 visits in 2023/24 were 23% higher than the 15,648 visits in 2019/20, but were 18% lower than in 2018/19.
- Visits to Longniddry Library in 2023/24 decreased by 8% when compared to the previous year. The 17,434 visits in 2023/24 were 29% lower than the 24,645 visits in 2019/20.

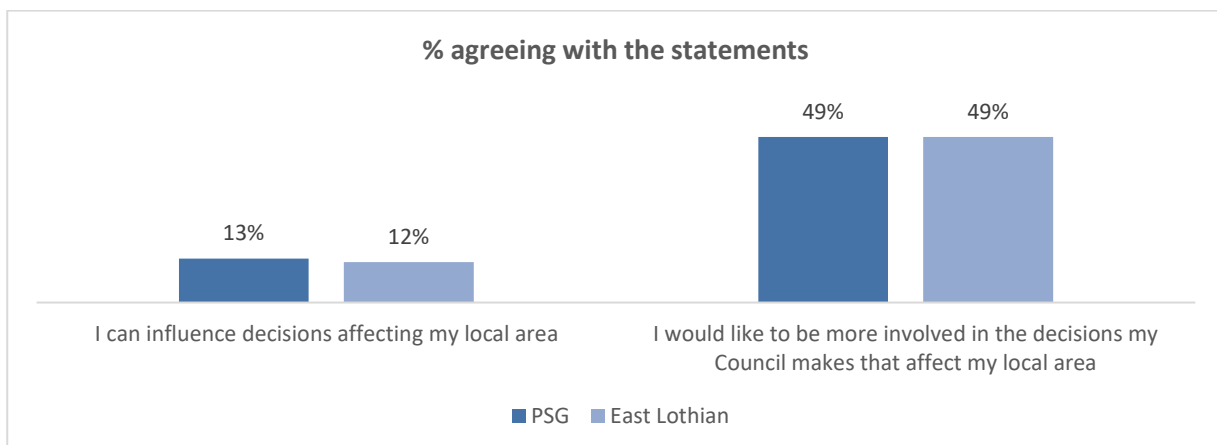

Figure 22 – Annual Physical Library Visits (East Lothian Council)

Participating in Decisions

The East Lothian Residents Survey (2024) asked how people felt about their ability to be involved in decisions that affect their local area. 13% of respondents in the ward felt that they could influence decisions in their local area similar to the 12% for East Lothian as a whole. 49% reported that they would like to be more involved in Council decisions affecting their area, the same as the 49% across East Lothian as a whole.

Figure 23 - Involvement in Local Decision Making (East Lothian Residents Survey 2024)

Housing

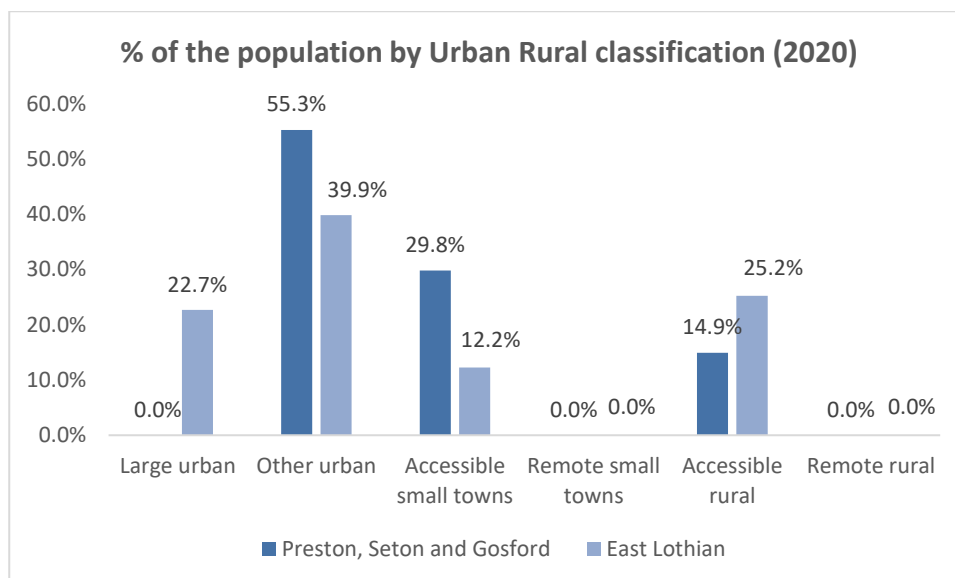

HEADLINES – Housing

- There were 8,263 dwellings in this ward, equal to 16.9% of the total number of dwellings across East Lothian.
- There were more semi-detached and terraced houses in this ward when compared to East Lothian as a whole.
- Median house prices in this ward were the second lowest in East Lothian.
- More houses in this ward had two or three bedrooms when compared to East Lothian as a whole.

The Scottish Government's Urban Rural Classification system provides a standard way of defining different urban and rural settings and measuring the percentage of the population living within each.

Figure 24 shows that 55.3% of the population in the Dunbar & East Linton ward is classed as living in other urban areas, higher than the 39.9% across East Lothian as a whole.

Figure 24 - Urban / Rural Classification (National Records of Scotland)

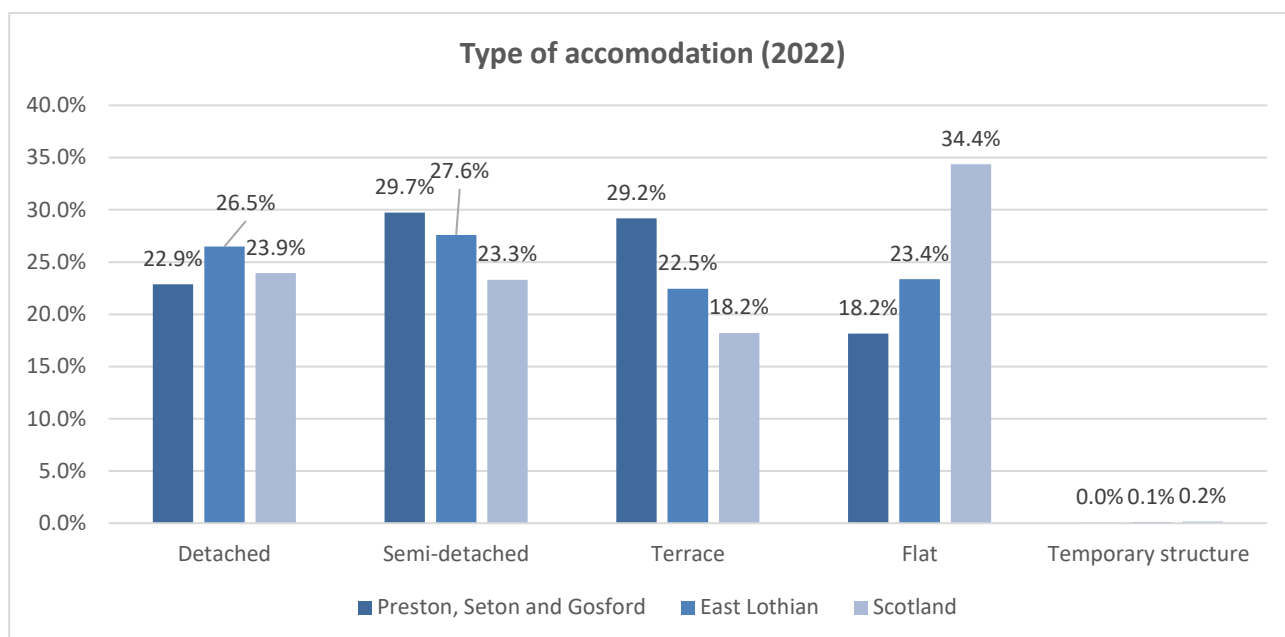

[Supporting documents - Scottish Government Urban Rural Classification 2020 - gov.scot \(www.gov.scot\)](https://www.gov.scot/resources/documents/2020/06/Scottish-Government-Urban-Rural-Classification-2020.pdf)

- *Large Urban Areas Settlements of 125,000 people and over.*
- *Other Urban Areas Settlements of 10,000 to 124,999 people.*
- *Accessible Small Towns Settlements of 3,000 to 9,999 people, and within a 30 minute drive time of a Settlement of 10,000 or more.*
- *Remote Small Towns Settlements of 3,000 to 9,999 people, and with a drive time of over 30 minutes to a Settlement of 10,000 or more.*
- *Accessible Rural Areas Areas with a population of less than 3,000 people, and within a 30 minute drive time of a Settlement of 10,000 or more.*
- *Remote Rural Areas Areas with a population of less than 3,000 people, and with a drive time of over 30 minutes to a Settlement of 10,000 or more.*

Housing Type

There were 8,263 dwellings in Preston Seton Gosford, equal to 16.9% of the total number of dwellings across East Lothian. There were more semi-detached and terraced houses in this ward when compared to East Lothian as a whole.

Figure 25 – Housing Type (Scotland's census 2022)

| Scotland | 96% | 3% | 1% |

[Households and Dwellings in Scotland, 2023 | National Records of Scotland \(nrscotland.gov.uk\)](https://nrscotland.gov.uk)

Council tax bands are based on the value of the dwelling (from band A with the lowest value to band H having the highest value).

Across East Lothian there are more dwellings in the upper Council tax bands than across Scotland as a whole.

In the PSG ward there are more dwellings in lower Council tax bands when compared to East Lothian as a whole.

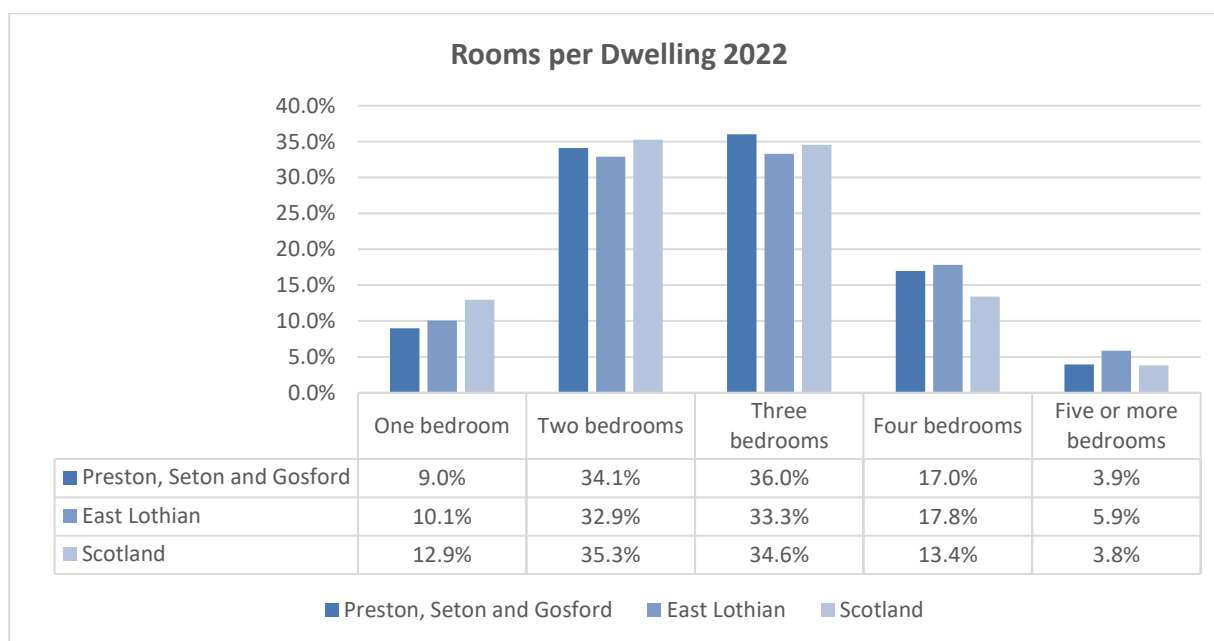

Table 24– Dwellings by Council Tax Band (National Records of Scotland)

| % of Dwellings by Council tax band (2023) | | | | |
|--|------------------|------------------|------------------|------------------------|
| Ward | Bands A-C | Bands D-E | Bands F-H | Total Dwellings |
| Dunbar and East Linton | 44.2% | 28.2% | 27.6% | 100.0% |
| Haddington and Lammermuir | 46.3% | 26.7% | 27.0% | 100.0% |

House Prices

Figure 28 shows that the median house price in East Lothian was above the Scottish average. Median house prices in this ward were the second lowest in East Lothian

Figure 28 - ESPC House Sales 2012 (Scottish Govt.)

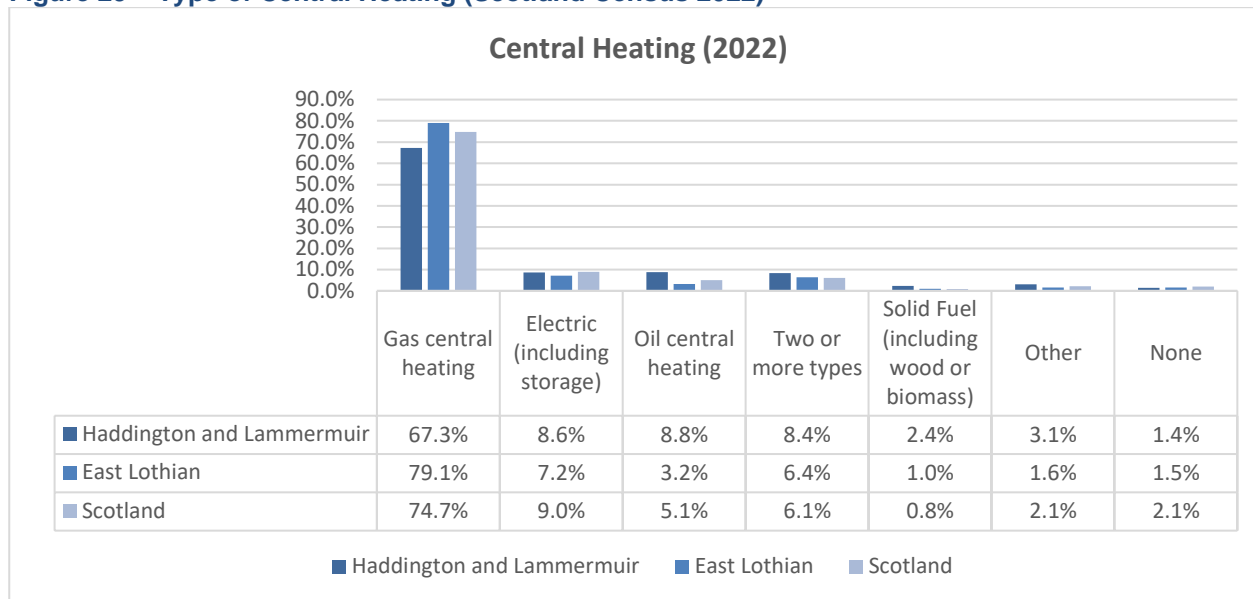

<http://statistics.gov.scot>

Central Heating

Figure 29 shows that less households in this ward had gas central heating when compared to East Lothian and Scotland as a whole. Residents in more rural areas are less likely to be connected to main energy supplies, relying on oil and biomass heating.

Figure 29 – Type of Central Heating (Scotland Census 2022)

[Search | Scotland's Census - Search by topic \(scotlandscensus.gov.uk\)](https://www.scotlandscensus.gov.uk)

Fuel Poverty

A household is considered to be in fuel poverty if :

- More than 10% (20% for extreme fuel poverty) of net income is required to pay for their reasonable fuel needs after housing costs have been deducted.
- The remaining household income is not enough to maintain an acceptable standard of living, defined as at least 90% of the UK Minimum Income Standard (MIS) once childcare costs and disability or care benefits are deducted.

The Fuel Poverty (Targets, Definition and Strategy) (Scotland) Act 2019 made provisions for 2040 fuel poverty targets:

- no more than 5% of households in Scotland are in fuel poverty
- no more than 1% of households in Scotland are in extreme fuel poverty
- the median fuel poverty gap of households in Scotland in fuel poverty is no more than £250 adjusted in accordance with section 5(5) to take account of changes in the value of money

Properties in rural areas are less energy efficient than those in an urban area with 65.8% banded EPC D or below. Properties in rural areas are less likely to be on the gas grid, reducing their energy efficiency and increasing their energy bills. 36% of homes in 'accessible rural areas' are off the mains gas grid and 13.2% of households are heated with oil.

28.8% of households in the PSG Area Partnership classed as being fuel poor, higher than the 24% for East Lothian and Scotland. Nationally households within the private rented (37%) and social rented sectors (38%) have far higher levels of fuel poverty than owner occupiers (16%). Fuel poverty affects 22% of households in the Musselburgh Area Partnership.

Homelessness

In 2023/24, there were 645 households that were assessed as homeless or threatened with homelessness in East Lothian. This equates to 130 per 10,000 households, which is similar to the national rate of 133.

Figure 30 – Households assessed as homeless per 10,000 households (Scot.Gov)

[Homelessness statistics - gov.scot](http://www.gov.scot)

In 2023/24, there were 354 households in temporary accommodation in East Lothian. This is 71 per 10,000 households, which is higher than the national average of 64. Edinburgh, West Lothian, East Lothian and Midlothian have the 1st, 3rd, 5th and 7th highest rates in Scotland.

Figure 31 – Number of Households in Temporary Accommodation per 10,000 households (Scot.Gov)

[Homelessness statistics - gov.scot](https://gov.scot/homelessness-statistics)

Crime and Safety

East Lothian is a relatively safe place to live, with levels of serious crime and disorder that are significantly below the Scottish average. However crime, anti-social behaviour and the fear of crime can undermine community cohesion and have an impact upon local people’s quality of life. This section therefore focuses not only on official crime statistics but also how people feel about the safety of their area.

HEADLINES – Crime and Safety

- Levels of crime in this ward were above the East Lothian rate for non-sexual crimes of violence, crimes of dishonesty and fireraising/vandalism.
- 3 data zones in this ward are within the 20% most affected by the SIMD 2020 crime categories in Scotland.
- 27% of adult residents in the ward felt threatened by crime “A great deal/A fair amount”, higher than the 22% across East Lothian as a whole.
- 72% of residents reported that they felt safe walking alone after dark in their area “a great deal or a fair amount, the same as for East Lothian as a whole.
- The majority of respondents in this ward (62%) said that seeing police officers in the community makes them feel safer, lower than the 69% for East Lothian.
- This ward had a lower number of accidental fires and a higher number of non accidental fires when compared to East Lothian.

Reported Crimes in the Ward

Figure 32 shows the level of crimes in this ward were above the East Lothian rate for non-sexual crimes of violence, crimes of dishonesty and fireraising/vandalism.

Figure 32 - Rates of Reported Crime (datamap Scotland)

[East Lothian Council Ward Crime Map - Scotland's data on a map \(datamap-scotland.co.uk\)](https://datamap-scotland.co.uk)

Crime Domain

The SIMD Crime Domain is based on the following factors: Recorded SIMD crime rates for domestic house breaking, drug offences, common assault, crimes of violence, vandalism and sexual offences.

3 data zones in Preston Seton Gosford are within the 20% most affected by crime in Scotland. 1 of which are amongst the 10% most affected by crime in Scotland

5 data zones in the ward are within the 20% least affected by crime in Scotland. 3 of which are in the 10% least affected by crime in Scotland

[Scottish Index of Multiple Deprivation 2020 - gov.scot](https://gov.scot)

Fear of Crime

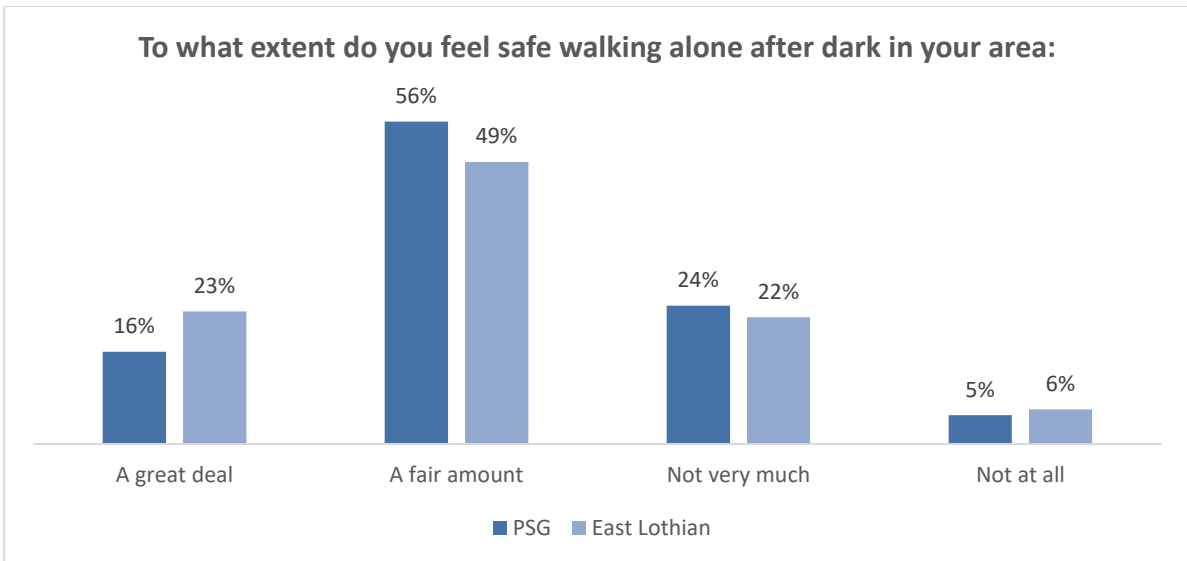

People's fear of crime does not always reflect the actual rate of crime occurring in their local areas. The East Lothian Resident Survey (2024) asked 'To what extent do you feel threatened by crime in your neighbourhood these days?' Figure 33 shows that 27% of adult residents in the ward felt threatened by crime "A great deal/A fair amount", higher than the 22% across East Lothian as a whole.

Figure 33 – Perceived Threat of Crime in Local Neighbourhoods (East Lothian Residents Survey 2024)

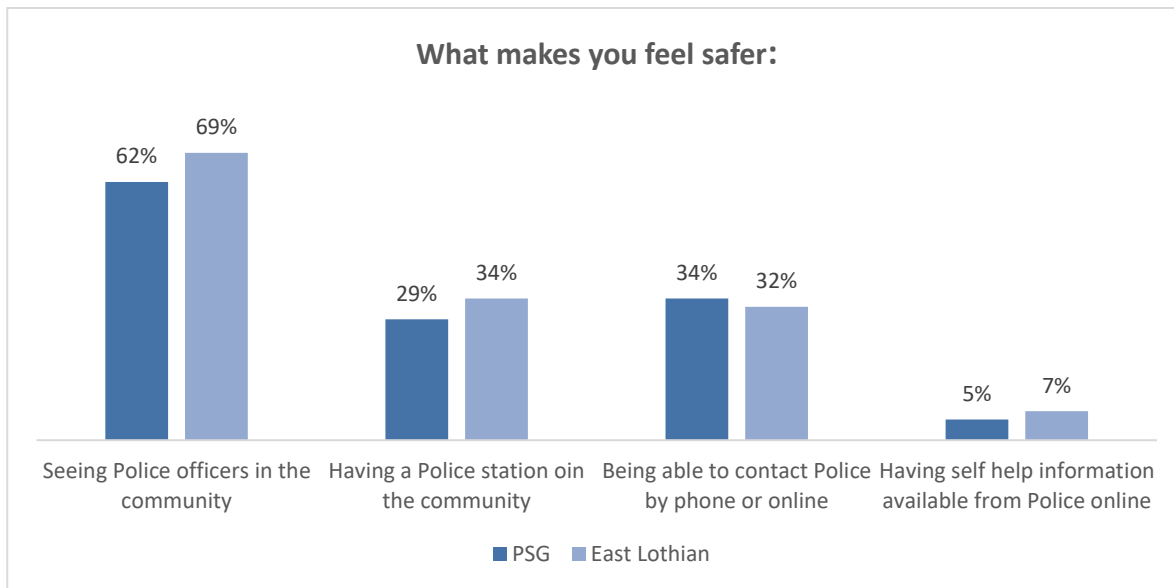

The East Lothian Resident Survey (2024) asked residents how safe they felt walking alone at night in their neighbourhood. 72% of Dunbar & East Linton residents reported that they felt safe “a great deal or a fair amount, the same as for East Lothian as a whole.

Figure 34 - Perceptions of Safety after dark (East Lothian Residents Survey 2024)

The East Lothian Residents Survey 2024 asked residents what makes them safer. The majority of respondents in this ward (62%) said that seeing police officers in the community makes them feel safer, similar to the 69% for East Lothian.

Figure 35 – What makes you feel safer? (East Lothian Residents Survey 2024)

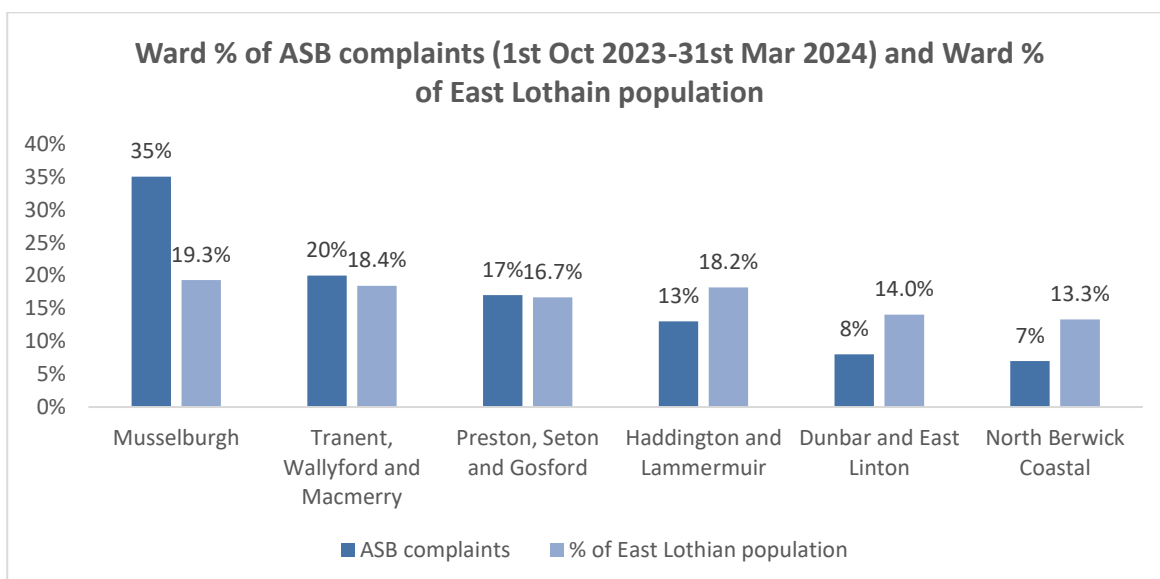

Anti-Social Behaviour

Anti-social behaviour (ASB) covers a range of incidents reported to the police and East Lothian Council’s Anti-Social Behaviour Hotline.

Across all wards there was a total of 876 ASB complaints to the council during the period 01/10 2023 to 31/03/2024, 48% were in relation to noise, 14% youths, 11% drug misuse and 27% other.

The ward breakdown in Figure xx shows that Musselburgh had a higher % of complaints relative to its share of the East Lothian population, with Haddington & Lammermuir, Dunbar & East Linton and North Berwick Coastal having a lower percentage of complaints.

Figure 36 – ASB Complaints by ward (East Lothian Council) and population Scotland’s Census 2022)

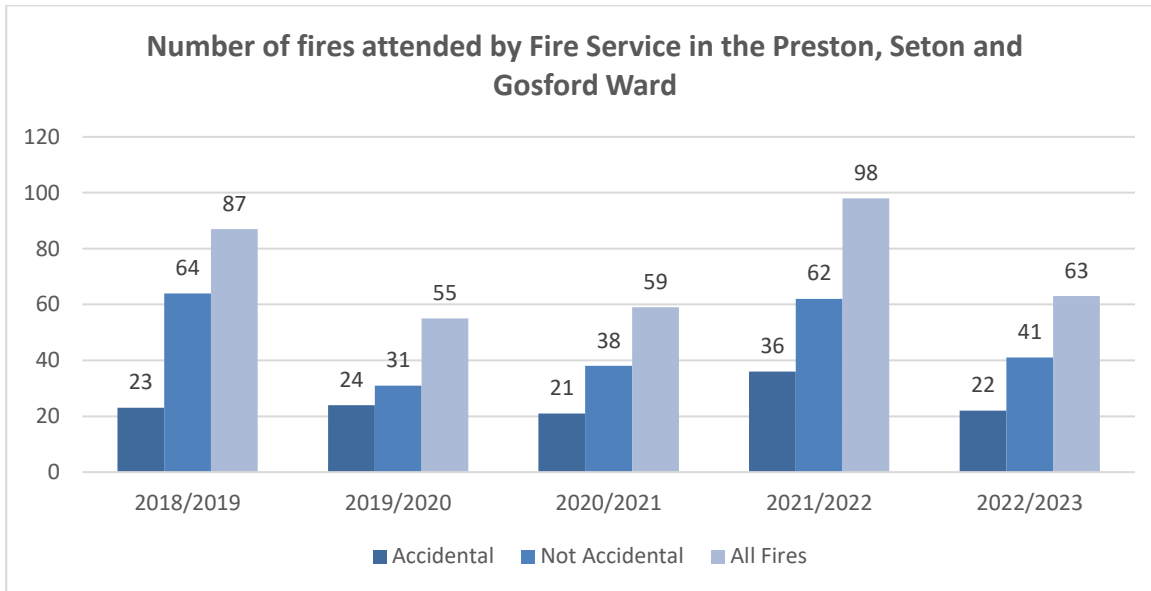

Fire incidences across the ward

Across East Lothian around 100 uniformed and support staff are employed by the Fire and Rescue Service within 6 community fire stations based at Musselburgh, East Linton, North Berwick, Tranent, Dunbar and Haddington.

- Figure 38 shows that accidental fires increased in 2021/22, before decreasing to similar levels to previous years in 2022/23
- Non accidental fires decreased by 35.7% in 2022/23.

Access Deprivation

SIMD Geographic Access Domain

This domain is intended to capture the issues of financial cost, time and inconvenience of having to travel to access basic services, and is based on travel time to 6 key services

It consists of two sub-domains, one for public transport journeys and one for journeys made by private car. This accounts for the fact that not everyone will have access to a car and therefore may be dependent on public transport.

No data zones are amongst the 20% most access deprived data zones in Scotland.

9 data zones in Preston Seton Gosford are in the 20% least deprived in Scotland, 5 of which are in the 10% least deprived in Scotland.

Table 29 - Access Deprivation (SIMD 2020)

Environment

HEADLINES – Environment

- 84% of respondents in the ward (East Lothian 77%) reported that they understood what action they should take to help tackle climate control.
- 63% of respondents in the ward (East Lothian 61%) reported that cheaper bus or train fares would definitely encourage them to address their impact on climate change.

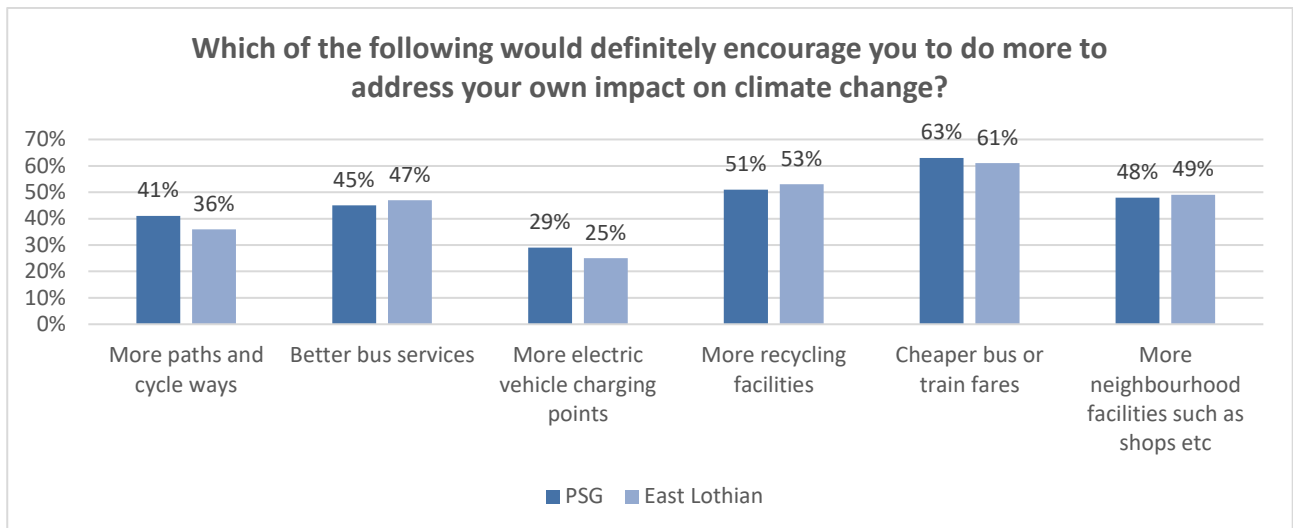

Table 30 shows that 84% of respondents in the ward reported that they understood what action they should take to help tackle climate control, similar to the 77% for East Lothian as a whole.

Table 30 – Perceptions of climate change (East Lothian Residents Survey 2024)

| To what extent do you agree/disagree with the following statements? | Agree/Disagree | PSG | East Lothian |
|--|----------------|-----|--------------|
| It's not worth me doing things to help the environment if others don't do the same | % agree | 26% | 22% |
| | % disagree | 62% | 67% |
| I don't believe my behaviour and everyday lifestyle contribute to climate change | % agree | 31% | 25% |
| | % disagree | 55% | 58% |
| Climate change will only have an impact on other countries, there is no need for me to worry | % agree | 9% | 5% |
| | % disagree | 84% | 87% |
| I understand what actions people like myself should take to help tackle climate control | % agree | 84% | 77% |
| | % disagree | 6% | 12% |

Figure 42 shows that 63% of respondents in the ward (East Lothian 61%) reported that cheaper bus or train fares would definitely encourage them to address their impact on climate change, the highest of all options. On the other hand only 29% in the ward (East Lothian 25%) said that more electric charging points would definitely encourage them to address their own impact on climate change

Figure 42:- Impact on climate change (East Lothian Council Residents Survey 2024)

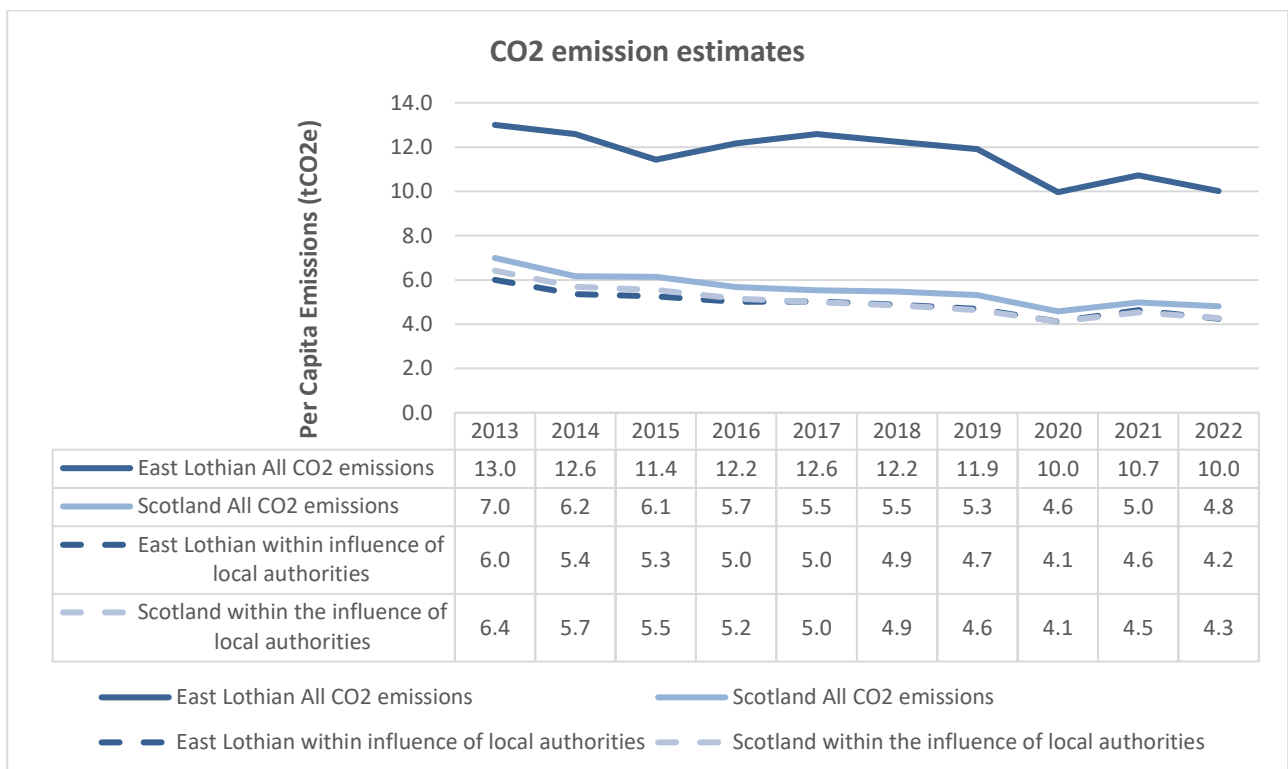

CO2 Emissions

Figure 43 shows that, in East Lothian between 2013 and 2022 there was a 23% decrease in the overall CO2 emissions, compared to a Scottish decrease of 31%. The East Lothian figure is consistently higher than the Scottish rate for areas that do not fall under the influence of East Lothian Council.

For areas that are within the influence of the Council, East Lothian has a similar level to that of Scotland. The East Lothian rate fell by 29% between 2013 and 2022, compared to 33% across Scotland as a whole.

Figure 43: CO2 Emission estimates per capita (tonnes per capita) in East Lothian and Scotland (UK Government 2016)

Perceptions of East Lothian Council & satisfaction with services

HEADLINES – Perceptions of ELC & satisfaction with services

- 37% of respondents in the Dunbar & East Linton ward felt that the council provided a high quality service (East Lothian 40%).
- Residents in the PSG ward expressed higher levels of satisfaction for pharmacies and parks, gardens & open spaces, and lower levels of satisfaction for police and council house repairs.

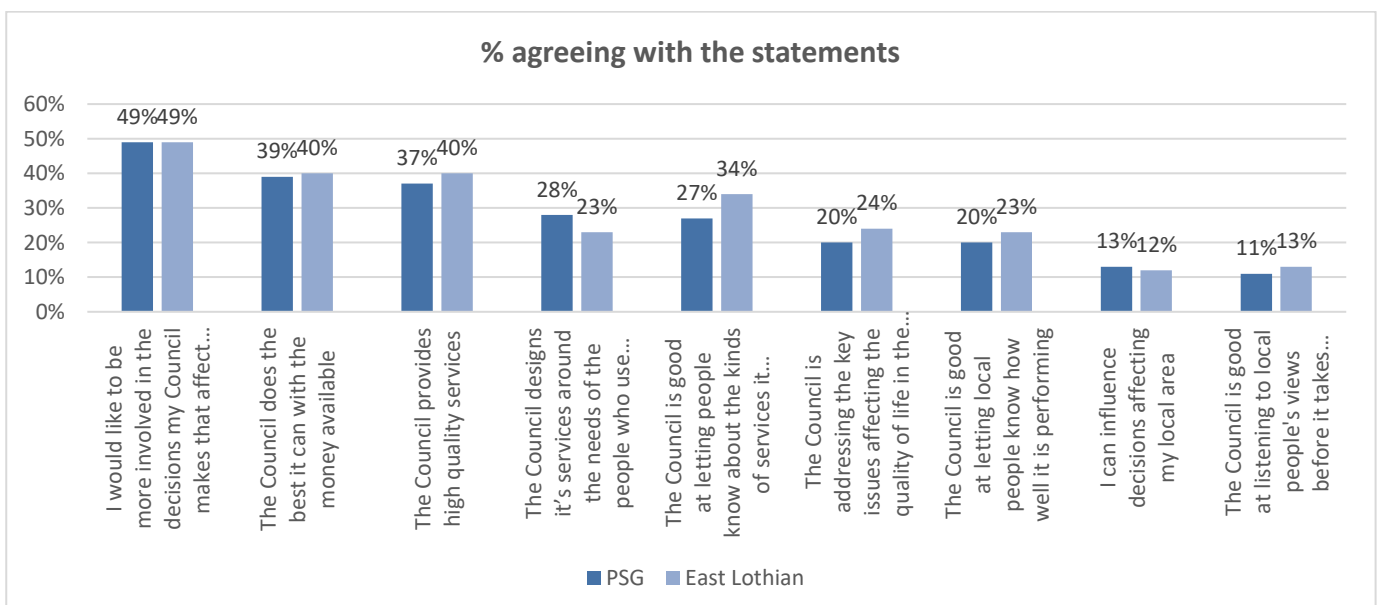

The East Lothian Residents Survey (2024) showed that 37% of respondents in the Preston Seton Gosford ward felt that the council provided a high quality service, compared with the overall East Lothian average of 40%.

Figure 44 - % of respondents agreeing that ELC provides a high quality service (East Lothian Residents Survey 2024)

Respondents were also asked whether they agreed with a range of statements about the Council. PSG residents were most likely to agree that the council provides high quality services and least likely to agree that the council was good at listening to people's views before it takes decisions (as shown in Figure 76).

Figure 45 - Level of Agreement with statements about ELC (East Lothian Residents Survey 2024)

The survey also asked people about their level of satisfaction with the East Lothian Council Services they used. Residents in the PSG ward expressed higher levels of satisfaction for pharmacies and parks, gardens & open spaces, and lower levels of satisfaction for police and council house repairs.
