Introduction

Scrutiny is the term used to describe the way in which the performance, decisions and plans of the Council are examined by the Elected Members who are not part of the Cabinet. Scrutiny in its widest sense might also include audit, inspection and regulation. Although there is no set definition for what is meant by scrutiny, this Guide will provide some guidance on how it will be approached at East Lothian Council.

Numerous bodies perform some kind of scrutiny of local government, including Audit Scotland, Her Majesty's Inspectorate of Education (HMIE), and the Social Work Inspection Agency (SWIA). These bodies provide 'external scrutiny'; equally important, if not more so, is the way that the Council scrutinises itself. Internal scrutiny by Elected Members has taken on much greater significance as a result of the 2007 Crerar Review. The Review recommended that rather than rely on the results of external scrutiny exercises 'The primary responsibility for demonstrating compliance and performance should rest with service providers.'

Rigorous scrutiny of the Council's achievement of Best Value by Elected Members is an essential part of the Council's governance arrangements, although it should not be conducted in a partisan manner. Audit, scrutiny, review of performance and policy review need not be done in a confrontational and oppositional way. As far as possible scrutiny should be a non-partisan, non-party political process. However, it is important to be aware, and accept that there remains a place for straightforward political opposition in the political arena of local government.

Four principles that have been developed by the Centre for Public Scrutiny underpin the Council's approach to scrutiny:

1. Scrutiny provides 'critical friend' challenge to executive policy-makers and decision-makers
2. Scrutiny enables the voice and concerns of the public
3. Scrutiny is carried out by 'independent minded governors' who lead and own the scrutiny role
4. Scrutiny drives improvement in public services

('Overview and scrutiny in local government', Centre for Public Scrutiny)

The Council's new scrutiny arrangements have been developed taking into account the criteria for good practice in scrutiny as set out by Audit Scotland in its Best Value Toolkit for Governance and Accountability (see Appendix 1).

1. Scrutiny at East Lothian

East Lothian Council has two committees that might be described as performing the 'scrutiny' function: the Audit and Governance Committee and the Policy and Performance Review Committee. Additionally the Council also has a Petitions Committee that allows local residents or organisations to raise issues relating to Council services or the wellbeing of the community.

The Audit and Governance Committee covers areas of corporate responsibility, for example risk, audit and corporate governance. The Policy and Performance Review Committee covers all matters relating to the performance of the Council's services. Further details of the areas of work covered by the scrutiny committees (and the petitions Committee) can be found in Appendix 2.

The Audit and Governance Committee and the Policy and Performance Review Committee will meet at least six times per year. In addition to these meetings the Policy and Performance Review Committee will be able to set-up short life sub-committees to review particular policy areas.

The work of the scrutiny committees will be set-out in annual work plans. The Audit and Governance Committee's work plan will largely be governed by the Audit Plan and the annual cycle of audit reports. The Policy and Performance Review Committee's work plan will have a focus upon the review of performance and the undertaking of a small number of in-depth policy reviews. Members of the Committees will determine what items are included in the work plan with the help of the '*Selecting topics for scrutiny*' section of this guide.

Responsibilities for decision making and for scrutiny are separated under the Council's Scheme of Delegation and executive decision making arrangements. Decisions are taken by the Cabinet and by Council, while decisions on certain matters relating to education are taken by the Council Committee for Education. Recommendations from any of the scrutiny committees may be referred to the Council, Cabinet or Education Committee for a decision to be made if necessary. The scrutiny structure is outlined on the following page. The roles and responsibilities of elected members and council officers involved in scrutiny are detailed in Appendix 3.

Critical Success Factors:

- Respect and positive relations between elected members
- Mutual trust and respect with officers
- Respect for roles and boundaries

2. Selecting Topics for Scrutiny and Review

Selecting topics to include in the work plan is an ongoing process. Some topics will be regular items, for example performance reports, while others will just cover a particular item. The following questions might help Members to identify potential topics for inclusion on the work plan:

Using a structured approach helps to avoid poor topic selection. Each potential topic for scrutiny should be subject to the same initial selection and rejection criteria.

Selection criteria	Rejection criteria
Improvements to services would be likely	The topic is already being addressed
High public concern shown through consultation	Scrutiny is unlikely to result in service improvements
Poor performing service	Matter is sub-judice or prejudicial to the Council's interests
Enhances the Council's priorities	The issue is more appropriately addressed by a body other than the scrutiny committees
High budgetary commitment	The objective cannot be achieved within given timescales
New guidance or legislation has recently been introduced	The subject is too broad to make a review realistic

Members need to be realistic in regard to the number of reviews that the Committee will be able to undertake in any given year. Three full scale reviews and three or four smaller reviews might be possible.

The following subjects are examples of topics that have been the subject of reviews carried out by another local authority's scrutiny committee over the last five years:

- The role of the Council in tourism
- Attainment in 5th and 6th years
- Early intervention
- Asset management arrangements
- Management of Council house voids
- Carbon management
- The implications of demographic changes
- Delayed discharges
- Child protection services

3. The Work Programme

Once a topic has been selected for scrutiny it should become part of the work programme. The work programme will provide an indication of the capacity of the Policy and Performance Review Committee to undertake policy reviews. The work programme will be composed of regular items and specific topics that have met the selection criteria.

On-going regular items

Some items will be reviewed on a regular annual or quarterly basis (e.g. external and internal audit plans, the annual accounts and quarterly performance monitoring reports); these will need to be factored into the programme at the appropriate intervals.

Regular items for scrutiny can be identified from the 'Corporate Planning Cycle' on the following page. The Corporate Planning Cycle displays the performance reports that can be expected each quarter, key dates in the budget setting process, and key dates in the business planning and self-evaluation process. Members will need to ensure that time is set aside in the work programme to allow for proper scrutiny of these regular items alongside specific policy reviews.

Items that have met the topic selection criteria for policy review

Some items for inclusion in the work programme will have passed through the topic selection criteria outlined previously. Topics that are identified as possible items for scrutiny through the selection criteria should be placed on to a reserve list to be periodically reviewed for priority and workload capacity.

The column entitled 'Policy Review' is not populated in the example provided above. This column would include any items that had been selected for review using the topic selection criteria outlined previously. The work programme will provide an indication of the capacity of the Committee to undertake a policy review.

4. Conducting a Policy Review

Policy Review is the process of evaluating the effectiveness of a particular area of Council policy or service provision. These reviews are likely to hear evidence from key stakeholders and commission research or reports to understand how well policy is being implemented or how well services are being delivered.

Policy Reviews are generally conducted within a set timescale, often two or three meetings. Conducting a review over the course of more than one meeting allows lines of enquiry to develop and additional information to be provided if required.

Advanced planning is essential to the success of any policy review. Officers will require time to prepare any evidence or reports and stakeholders will need prior notice if Members would like them to attend a meeting. Policy Review exercises need to be well planned and should be included as part of the work programme.

When planning a policy review exercise Members might like to consider the following:

1. Identifying the objectives and key issues

What do we want to achieve and what are the main issues that need to be addressed in order to achieve the objective?

2. Establishing the timeframe of the review

The overall timeframe of the review will need to be established and added to the work programme.

3. Outlining the stakeholders and evidence required

What evidence is required to achieve the outcomes, and who needs to be called as a witness?

4. Considering the lines of enquiry

Once the objectives and the key issues have been decided, lines of enquiry should be determined to help focus the review and enable a consistent approach to a topic across meetings. Are you clear about the issue or problem and why it is the subject of the review and what are the terms of reference of the review?

Appendix 1 includes some specific key questions identified by Audit Scotland as part of their 'Overview of Local Government in Scotland'. The questions reflect areas of concern that are common across Local Government in Scotland. Members are encouraged to consider the relevance of these questions to any scrutiny work they undertake.

Before concluding a Policy Review the Committee should invite the relevant Executive Director or Head of Service, portfolio holder and/ or Council Leader to discuss the draft findings and recommendations.

Stakeholder Involvement

Scrutiny committees are encouraged to involve relevant stakeholders in policy reviews. Stakeholders can provide useful expertise and knowledge, while hearing directly about the experience of service users can provide a helpful reality check.

The needs of different stakeholders should be considered when planning their involvement in a review. Not all stakeholders will be comfortable, or able, to attend a meeting, therefore consideration should be given to whether their evidence can be provided by other means if necessary.

‘Service users are experts on what it feels like to use a service and involving them in scrutiny is essential to focus service improvements on their needs.’

(‘User focus in the scrutiny of public services’, Consumer Focus Scotland)

Which stakeholders might we involve?

Group	Examples
Service Users	East Lothian Tenants and Residents Panel (ELTRP) East Lothian Access Panel Parent’s Councils
Community Groups	Community Councils Chambers of Commerce Petitioners
Partners	Police Fire & Rescue Service NHS Voluntary Organisations (VAEL) Community Health Partnership Scottish Government
‘Experts’	Academics Improvement Service SOLACE COSLA Professional associations

5. Scrutiny Techniques

Members might find some of the following techniques and tips useful when conducting policy reviews or scrutinising performance information.

Questioning styles – good practice

Open questions

Open questions encourage respondents to talk and expand upon the issue. Open questions allow respondents to describe a situation in their own words. The key prefixes for an open question are 'What?', 'How?' and 'Why?' Examples include:

- What do you consider the service does well?
- How did you establish x as a priority for the service?

Open Questions can also be formed through phrases such as:

- Tell me about a time when...
- Explain to me how you...

Using open questions can form a basis for asking further probing questions based on the answer to the initial question. For example:

- You say that you did... can you give me an example of how you carried that out?
- I was interested to hear you say... can you tell me more about that?

Hypothetical questions

Asking hypothetical questions can help to test out ideas for recommendations and can also be useful in obtaining evidence. For example:

- If x were possible how would this change your strategy?

Behavioural questions

Behavioural questions can help to get evidence of how an organisation might carry out a task in future by using examples of past behaviour. For example:

- What process has the organisation used in the past to achieve the outcome?

Questioning styles – try to avoid

Closed questions

Closed questions are those that can be answered in a single word. While closed questions can be useful in clearing up points of fact, they are unlikely to yield much further information.

- Does your organisation do x?

Leading questions

Leading questions make it clear to the respondent what answer is expected and are unlikely to yield genuine answers. For example:

- We know from experience that x works, what is your experience of x?

Asking a question in this format makes it very difficult for the respondent to give an honest answer.

Double-headed questions

Double-headed questions ask more than one question at a time. Double-headed questions can either confuse the respondent, or ensure that the respondent answers only the part of the question that they are comfortable with. Both questions might be valid lines of enquiry, but it would be more productive to ask them separately:

- If your organisation has the responsibility to do x how is this measured, and how does x fit into the national strategy?

Multiple choice questions

Multiple choice questions offer a number of possible answers, but do not ask for any real explanation. For example:

- Do you believe that x, y, or z is the best way forward?

6. Making Sense of Performance Data

A key role of the Policy and Performance Review Committee is to monitor, comment on and make recommendations based on quarterly and annual reports of performance.

East Lothian Council’s performance reports contain the following features:

Trend arrows

Trend arrows show whether performance has improved \uparrow , worsened \downarrow , or stayed the same \leftrightarrow in comparison to the previous period (i.e. the previous quarter, month or year depending on how frequently the indicator is reported).

RAG (Red, Amber or Green) status

The RAG status is designed to show whether an indicator is exceeding its target, in which case it would be green ■, slightly below target (amber) ■, or significantly below target (red) ■.

Graphs

Bar chart

Line chart

Graphs are used to show the long-term trend for an indicator. While the trend arrows show whether an indicator has improved or worsened since the last period, graphs can provide further context to help understand performance. Graphs show whether any changes in performance are a short-term blip, or are the result of a long-term trend.

Comments

Each indicator includes explanatory comments that are provided by the officer responsible for collating the measure. The comments section should explain the reasons why the indicator has improved, worsened or stayed the same.

What to look for in a performance report

The indicator has improved since the previous quarter, in which performance dropped below the long-term average.

Period	Actual	Target	RAG	Comment
Q4 09/10	80.00	85.00	↑	The winter weather conditions through January/February and the rainfall/storms and flooding during March and the resultant increase in the deterioration of the road network meant that additional resources had to be deployed to achieve the 80% level.

The comment explains that the reason for the dip in performance was exceptionally bad weather.

Performance remains below the target level (red RAG), although extra resources have been deployed to ensure that performance has improved (upwards arrow).

Using the performance indicators

Performance indicators should be used to identify areas for further investigation and review. For example, the indicator outlined above shows that performance dipped because of severe weather. In this instance Members might like to consider what the impact is upon the Service of deploying the additional resources necessary to improve performance. Members could also seek to understand the likelihood of this situation occurring again and how the Service might prepare for that eventuality.

Questions to ask when considering performance data:

- What information could I do without?
- Is the information easy to understand?
- Can I interpret what the key messages are?
- Would a different method or presenting help me interpret the information?
- Do I challenge officers to explain the information?
- Do I challenge officers to provide missing information?

Individual performance indicators should be considered in conjunction with any other available contextual information. Rarely will an individual indicator adequately describe performance on its own. Other sources of information that could be used in conjunction with an indicator might include, for example, other performance indicators, previous committee reports, customer feedback and auditor's reports.

7. Reporting

Recommendations made by the scrutiny committees will be reported to the Cabinet or Council as appropriate if a formal decision is required to amend policy or practice. Alternatively recommendations will be made to the appropriate Executive Director if a decision falls within their delegated powers.

8. Monitoring

Recommendations from the scrutiny committees will be included and monitored as part of the Corporate Improvement Plan. The Corporate Improvement Plan will be reported in its entirety to the Audit and Governance Committee on a quarterly basis.

Appendix 1: Scrutiny and Best Value

Audit Scotland has outlined what constitutes good practice in scrutiny as part of their Best Value Toolkit on Governance and Accountability. The Toolkit forms one part of a set of documents that clarify the criteria against which Councils will be judged as part of the Best Value 2 Audit. Prior to the Best Value 2 Audit being conducted the Council will need to review the effectiveness of its scrutiny and review functions using the criteria established by Audit Scotland in the Toolkit:

BEST VALUE TOOLKIT: ASSESSMENT MATRIX – GOVERNANCE & ACCOUNTABILITY

	Basic practice	Better practice	Advanced practice
5. How well do challenge, scrutiny and review processes ensure a range of informed views are sought and actively considered to aid decision making and improvement?			
5.1 How effective, objective and transparent is the scrutiny and challenge of decisions and policies?	<p>There is sufficient opportunity for objective challenge and questioning of decisions by members before they are taken or confirmed, built into policy development and decision making processes. There is a process to challenge and rethink decisions in exceptional circumstances.</p> <p>Some member challenge to policy or decisions takes place. It incorporates a dispassionate exploration of issues, alongside any challenge to decisions on grounds of politics or principle.</p> <p>The nature and extent of the scrutiny and challenge that has taken place is transparent.</p>	<p>The organisation regularly reviews how effectively it scrutinises decisions, making continuing improvements to processes and support for members.</p> <p>Independent members actively challenge key decisions before they are taken or confirmed in an, objective and constructive manner. This scrutiny is treated seriously by decision makers, with time taken to explore the issues raised.</p> <p>Scrutiny processes are structured and well managed as part of a systematic approach. Challenge is focussed on significant issues and does not unduly delay decisions.</p>	<p>Effective, objective and transparent scrutiny and challenge of policy development and decision making is embedded in the organisation's culture and ways of working.</p> <p>Members and senior officials that are responsible for decision making actively seek informed and constructive challenge, value and respond positively to this.</p> <p>Members and senior officials routinely challenge each other in an objective, effective and open manner – achieving an appropriate balance between challenge and timeliness of decision making.</p>

5.2 How effective, objective and transparent is scrutiny of the organisation's performance and the effectiveness of its policies and procedures?	<p>There is sufficient opportunity for members to review and objectively challenge the performance of the organisation and the implementation of policies and decisions through:</p> <ul style="list-style-type: none"> • ongoing monitoring of quality, performance, implementation and management processes • post implementation reviews of policies and improvements. <p>Time is set aside on agendas for this purpose and members are provided with appropriate and objective reports.</p> <p>Some challenge takes place, including questioning of responsible senior officials about important aspects of performance and management effectiveness.</p> <p>The nature and extent of the scrutiny and challenge that has taken place is transparent.</p>	<p>The organisation regularly reviews how effectively it scrutinises performance, making continuing improvements to processes and support for members.</p> <p>Scrutiny is led by independent members who take a constructive and objective approach. Senior officials are held to account in a meaningful way, and are open and helpful in their response to questioning.</p> <p>Challenge is based on objective sources of evidence and effort is targeted at significant issues related to the priorities and the overall objectives of the organisation.</p> <p>Scrutiny leads to the identification of areas for improvement. 5.3 How effective is the Audit committee?	<p>An audit committee has been established and meets regularly. Its remit and operation meets the minimum applicable standards for the organisation. It has the right to report to and be heard by all members.</p> <p>An appropriate focus is given to the risk management, internal control and financial management & reporting.</p> <p>Internal and external auditors attend meetings and submit reports summarising their plans and the results of their work.</p>	<p>The audit committee regularly reviews its own performance against best practice and takes action to continuously improve its effectiveness. It reports annually to all members and can demonstrate good performance.</p> <p>The committee specialises in scrutiny of risk management, including the effectiveness of financial management and reporting. Wider scrutiny of performance is dealt with elsewhere.</p> <p>At least one member of the committee has recent financial experience.</p>	<p>The audit committee's role is well understood and valued across the organisation. It is seen as apolitical and authoritative.</p> <p>Members of the committee are well informed, and skilled in effective challenge and open discussion. They are able to confirm to other members that the right processes are in place to give confidence that financial stewardship and overall governance arrangements can be relied upon.</p>
5.4 How well does the Internal audit function provide assurance to management on the integrity of the organisation's corporate governance framework and identify areas for improvement?	<p>The organisation has established an internal audit function with sufficient status and resources to review and report on key aspects of the system of internal control.</p> <p>The Internal Audit function complies with relevant minimum standards and the head of internal audit has unfettered rights of access to members and senior officials.</p>	<p>The Internal Audit function maintains a recognised quality accreditation, actively reviews its own effectiveness, and continuously improves.</p> <p>The Head of Internal Audit respected and authoritative, and is consulted on governance and internal control arrangements for new and existing business initiatives during the development phase.</p>	<p>The internal audit function can demonstrate the highest standards of performance. The value and impact of its work is recognised by all members and senior officials.</p>

	Basic practice	Better practice	Advanced practice
5.5 How effective is the organisation's annual review of its overall corporate governance arrangements?	<p>The organisation completes an annual review of its corporate governance arrangements that meets the relevant minimum standard. It publishes details of this review in line with requirements placed on it.</p> <p>The review is informed by the work of internal audit, the audit committee and reports from external auditors and the conclusions are consistent with this.</p> <p>The review is effective in identifying significant concerns and action is taken to address these.</p>	<p>An annual governance statement is published, summarising the extent of and conclusions from a review of the effectiveness of the system of internal control.</p> <p>It is underpinned by a robust approach to review and is signed by the most senior member and most senior official on behalf of the organisation.</p> <p>No significant control weakness exist. The review process is itself reviewed regularly.</p>	<p>The overall review of governance is underpinned by ongoing review of control frameworks operated across the organisation and any subsidiaries.</p> <p>Senior officials are committed to an effective review of internal control in their own areas of responsibility. They show an understanding of the nature and value of the control framework and act promptly to address any areas of concern.</p>
5.6 How well does the organisation respond to external review and scrutiny?	<p>Relevant staff engage constructively and professionally with external auditors and other scrutiny bodies, making genuine attempts to answer questions and provide evidence that is requested.</p> <p>Reports by external auditors and other scrutiny bodies are considered by relevant members and senior officials, and action is taken to address any significant issues that are raised.</p> <p>Where external scrutiny identifies any significant areas of concern or weakness, members and senior officials engage with the relevant scrutiny body to better understand how to address the issues raised.</p>	<p>The organisation engages meaningfully with external audit and other relevant scrutiny bodies about their plans, providing views on where external reviews would add most value alongside internal review and improvement activity.</p> <p>The views and support of external auditors and inspectors are sought in relevant circumstances, and members and senior officials display a real understanding of their role and remit.</p> <p>The organisation systematically considers the wider implications of significant issues raised in external reports (for example whether similar concerns exist in other areas of the organisation).</p>	<p>The organisation systematically reviews the findings and conclusions of reports about other organisations and any national or cross-cutting reports, to considering potential implications for it and opportunities to apply best practice.</p> <p>Members and senior officials value the independent challenge and assurance provided by proportionate and risk based scrutiny activity. They respond to this in a manner that strengthens the organisation's own review and improvement activity.</p>

Appendix 4: How Good is Our Council?

'How Good is Our Council?' is a means of evaluating five essential elements that should characterise the quality improvement systems of the Council. Self-evaluations are conducted by a cross-section of staff drawn from the service being evaluated. Services are asked to evaluate themselves against a series of questions that relate to the elements outlined below:

Key Questions				
What key outcomes have we achieved?	How well do we meet the needs of stakeholders?	How good is our delivery of key processes?	How good is our management?	How good is our leadership?
<p>1. Key Performance Outcomes</p> <p><i>1.1 Improvement in Performance</i></p> <p><i>1.2 Adherence to statutory principles and fulfilment of statutory duties</i></p>	<p>2. Impact on service users</p> <p><i>2.1 Impact on service users</i></p> <p>3. Impact on staff</p> <p><i>3.1 Impact on staff</i></p> <p>4. Impact on the community</p> <p><i>4.1 Impact on the local community</i></p>	<p>5. Delivery of key processes</p> <p><i>5.1 Delivering services</i></p> <p><i>5.2 Developing, managing and improving partnerships and relationships with service users and other stakeholders</i></p> <p><i>5.3 Inclusion, equality and fairness</i></p> <p><i>5.4 Improving the quality of services to stakeholders</i></p>	<p>6. Policy Development and planning</p> <p><i>6.1 Policy review and development</i></p> <p><i>6.2 Participation of service users and other stakeholders</i></p> <p><i>6.3 Planning</i></p> <p>7. Management and support of staff</p> <p><i>7.1 Sufficiency, recruitment and retention</i></p> <p><i>7.2 Deployment and teamwork</i></p> <p><i>7.3 Development and training</i></p> <p>8. Resources</p> <p><i>8.1 Partnership working</i></p> <p><i>8.2 Financial management</i></p> <p><i>8.3 Resource management</i></p> <p><i>8.4 Information systems</i></p>	<p>9. Leadership</p> <p><i>9.1 Vision, values and aims</i></p> <p><i>9.2 Leadership and direction</i></p> <p><i>9.3 Leading people and developing partnerships</i></p> <p><i>9.4 Leadership of innovation, change and improvement</i></p>

The key questions are used in conjunction with an evaluation scale of six levels. The levels are:

Level 6: Excellent	Outstanding, sector leader
Level 5: Very Good	Major strengths
Level 4: Good	Important strengths with areas for improvement
Level 3: Adequate	Strengths just outweigh weaknesses
Level 2: Weak	Important weaknesses
Level 1: Unsatisfactory	Major weaknesses

The assessment of which level the Service has achieved is mainly based upon qualitative judgements. However, guidelines are provided to ensure some degree of consistency, for example:

“An evaluation of excellent applies to provision which is a model of its type. The experiences of, and outcomes achieved by, service users are of very high quality. An evaluation of excellent represents an outstanding standard of provision which exemplifies very best practice and is worth disseminating beyond the Council. It implies these very high levels of performance are sustainable and will be maintained.”

High performing services will:

- Articulate clearly the desired outcomes for people who use our services
- Set challenging targets and improvement objectives for achieving successful outcomes for everyone who uses our services
- Have, within and across services, effective arrangements for evaluating systematically and rigorously whether successful outcomes are being achieved
- Ask demanding questions about the performance of Services and the Council itself
- Use the information from evaluation to make continuous and sustained improvements to achieve successful outcomes; and
- Clarify leadership and accountability roles for achieving improved outcomes

Departmental management teams provide external challenge to, and validation of, the self-evaluation results for each service. This approach also complements the proposed national shift to ‘Assisted Self-Evaluation’ that has resulted from the Crerar Review. Using Assisted Self-Evaluation staff will lead the process, although inspectors assist and, crucially, challenge performance and practices.
