

## East Lothian Community Hospital

September 2014

## Context within the NHSL Plan

#### **Exploring Options for a new Community Hospital in East Lothian:**

- •NHS Lothian Strategic Plan
  - Unscheduled Care Repatriation of post acute rehabilitation, freeing capacity
  - Scheduled Care Day surgery, Endoscopy, Outpatients
  - Primary Care GP premises
- Integration
  - Day Services
  - Co-location of joint teams
  - Reducing delayed discharges
- Quality and Safety
  - Direct re-provision to achieve modern standards i.e. single rooms, ensuite etc.

## **Ambitions**

- •Fit for purpose accommodation
- Single bedrooms
- •Improved use of outdoor space
- Increased privacy and dignity

- •Calming and therapeutic environment
- Reduced Infection
- •Ground floor accommodation where appropriate
- Anti ligature fittings for MH
- •Improved staff morale

- •Improved zoning of services
- •Improved clinical adjacencies
- •Increased opportunities for shared space
- •Improved outcomes
- •Closer to home

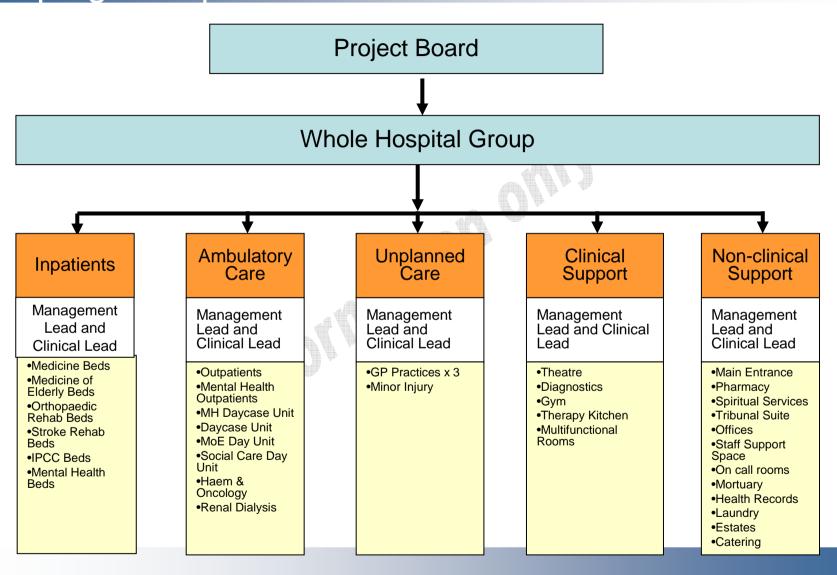

## Workstreams

- Capacity Planning / Project Scoping Complete
- Clinical Brief Complete
- Phasing Proposals Ongoing
- Strategic Delivery Timescales Based on 2017 Delivery
- Property/Asset Strategy Ongoing
- Outline Business Case April 2015

# Approach to Developing Service Scoping Groups

## Capacity Planning Conclusions

#### • Conclusions:

- There is evidence for expanding services in ELCH to provide East Lothian residents with equity of access to services
- The analysis work shows there to be sufficient volumes to justify the repatriation of activity from a service delivery perspective and potential expansion

#### Opportunities:

- Re-provide services as they currently exist to meet future demand projections
- Repatriate services to release pressure on other NHSL sites
- Delivering alternative models of care to avoid admission and reduce unnecessary stays in hospital

## Planning and Scoping

## **Existing Site**

## **Space Planning**

Indicative space planning exercise only, not to be taken as building form

#### **Construction Challenges**

Indicative space planning exercise only, not to be taken as building form

#### **Construction Zoning**

Indicative space planning exercise only, not to be taken as building form

# Strategic Delivery Program

Hub Appointment	May-13
<ul> <li>Initial Agreement</li> <li>Stage 1 – Capacity Review / Investigation</li> <li>Stage 2 – Project Scoping &amp; Clinical Briefing</li> <li>Initial Agreement Approvals (F&amp;R)</li> </ul>	Oct-13 Mar-14 July-14
New Project Request (Phase One)	Oct-14
