

**REPORT TO:** East Lothian Council

MEETING DATE: 25 October 2022

BY: Executive Director for Place

**SUBJECT:** 2022–2027 Council Plan Action Plan

## 1 PURPOSE

1.1 To present the 2022–2027 Council Plan Action Plan to Council for approval.

### 2 RECOMMENDATIONS

Council is asked to:

- 2.1 approve the 2022–2027 Council Plan Action Plan (Appendix 1)
- 2.2 agree that a new set of Top 50 Council Plan indicators will be presented to the Policy Performance and Review Committee for consideration before coming to Council for approval.

#### 3 BACKGROUND

- 3.1 The 23 August Council meeting unanimously approved the 2022–2027 Council Plan and noted that a detailed Action Plan along with proposed Council Plan Performance Indicators would be presented to Council in October 2022.
- 3.2 The Council Plan is based around three overarching objectives and four thematic objectives:
  - Recovery and Renewal recovering from the COVID pandemic by investing in regeneration and a sustainable future
  - Reduce poverty and Inequality supporting our communities to deal with the growing levels of poverty and inequality
  - Respond to the Climate Emergency meeting our net zero climate change targets
  - Grow our Economy increase sustainable and inclusive growth as the basis for a more prosperous East Lothian

- **Grow our People** − give our children the best start in life and protect vulnerable and older people
- Grow our Communities give people a real say in the decisions that matter most and provide communities with the services, infrastructure and environment that will allow them to flourish
- Grow our Capacity deliver excellent services as effectively and efficiently as possible within our limited resources
- 3.3 The Council Plan Action Plan (Appendix 1) sets out the key actions which will deliver the 2022–2027 Council Plan objectives. Delivery of the Plan and its objectives will be carried out predominantly through key strategies and plans, including the:
  - Recovery and Renewal Plan
  - Poverty Plan
  - Equality Plan
  - Climate Change Strategy
  - Economic Development Strategy
  - Education Improvement Plan
  - IJB Strategic Plan
  - Local Housing Strategy
  - Local Transport Strategy
  - Financial Strategy
- 3.4 The Action Plan does not include all the actions in these strategies and plans the first four listed above alone contain 290 actions. So the Action Plan includes the implementation of each of these strategies and plans as single actions.
- 3.5 It should be noted that all strategies and plans require to be agile in order to respond to changing circumstances and evolving risks and financial and legislative contexts such as the cost of living crisis and inflation. Therefore the Council Plan and its Action Plan will be kept under regular review.
- 3.6 A review of the party manifestos under which the Council's 22 Elected Members were elected in May 2022 has identified around 220 specific commitments. Most of these are already included in existing strategies and plans and are not replicated in the Action Plan. However, the Action Plan has highlighted around 55 commitments as specific actions that will make a major contribution to delivery of the Council Plan.
- 3.7 The Action Plan includes a column which sets out how each action and relevant performance indicators will be monitored and reported on. Rather than create new reporting and frameworks and structures it is proposed that progress with the 68 actions be carried out primarily through the existing reporting mechanisms for the key strategies and plans.
- 3.8 The Annual State of the Council report which is presented to Council at the end of each year will provide a summary of progress with the Council Plan and Action Plan and a review of the Council Plan Performance Indicators.

- 3.9 The Council adopted a set of Top 50 Council Plan indicators to monitor progress with implementing the 2017–2022 Council Plan. Appendix 2 provides the latest update on these 50 indicators, structured around the new Council Plan objectives.
- 3.10 Officers are to review the existing Top 50 indicators to take account of the new Council Plan's priorities (e.g. the current Top 50 does not include any indicators relating to Recovery and Renewal and has only one indicator specifically related to responding the climate emergency) and the availability of relevant and timely data. It is proposed that the new set of Top 50 Council Plan indicators will be presented to the Policy Performance and Review Committee for consideration before coming to Council for approval.

#### 4 POLICY IMPLICATIONS

4.1 This report has no policy implications.

### 5 INTEGRATED IMPACT ASSESSMENT

5.1 The subject of this report is not applicable to the well-being of equalities groups and an Impact Assessment is not required.

#### 6 RESOURCE IMPLICATIONS

- 6.1 Financial no direct financial implications associated with this report.
- 6.2 Personnel no direct implications on staffing associated with this report.
- 6.3 Other none.
