REPORT TO: Members' Library

DATE: April 2025

BY: Executive Director of Place

SUBJECT: Development Plan Scheme No.16

1 PURPOSE

To note the Council's sixteenth annual Development Plan Scheme (DPS) outlining the programme for preparation of the next Local Development Plan for East Lothian (LDP2).

2 RECOMMENDATIONS

- 2.1 It is recommended that Members note the contents of Development Plan Scheme No.16, as detailed in Appendix 1 to this report. The DPS can also be viewed online (<https://arcg.is/155HD0>).

3 BACKGROUND

- 3.1 The Planning (Scotland) Act 2019 requires that Local Planning Authorities prepare and publish a Development Plan Scheme (DPS) setting out the programme for reviewing their Local Development Plan, preparation of a replacement Local Development Plan, and how it will be implemented. It must also include a Participation Statement detailing how interested parties can get involved at the different stages of plan preparation.
- 3.2 The current Local Development Plan for East Lothian is the LDP 2018 which was adopted in September 2018. The LDP 2018 is supported by a series of statutory Supplementary Guidance documents and non-statutory Supplementary Planning Guidance documents.
- 3.3 In order to ensure that East Lothian maintains an up to date and compliant LDP for the area, work has already started on LDP2. This will be undertaken under the new Planning (Scotland) Act 2019, which introduced a number of new procedures for LDP preparation, including the requirement to prepare an Evidence Report covering issues set out in section 15(5) of the Act 2019, and a gate-check process.

- 3.4 The Planning (Scotland) Act 2019 requires the Development Plan Scheme to include proposed timetabling, with proposed timings for various stages of LDP plan preparation, by specifying the proposed year and quarter. The stages which require to be covered are:
- publication of the Evidence Report;
 - publication of the Proposed Plan;
 - submission of the Proposed Plan to the Scottish Ministers; and
 - expected adoption of the LDP.
- 3.5 This Development Plan Scheme no.16 sets out the timetable for preparing the Evidence Report, indicative timescales for the Gate Check process with the Scottish Government, preparation of the proposed Local Development Plan 2, and submission of the proposed plan or Examination. Finally, it proposes a target date for adoption of LDP2.
- 3.6 The Participation Statement provides details of how interested parties were able to get involved with the early stages of the next Local Development Plan. The first stage involved gathering information on the effectiveness of current policies, engaging with various East Lothian Council Services, Key Agencies, landowners, local interest groups and the general public, and also considering up to date background information on a range of social, economic and environmental matters for the county. There was also a wide range of awareness raising undertaken with local communities, including providing details of how to get involved in future stages of plan preparation.
- 3.7 The extensive consultation carried out on the Evidence Report stage was important for gathering views on current planning matters within East Lothian, and whether the evidence was sufficient to proceed towards submission to the Scottish Government. The timetable for this next stage is set out within the DPS 16.
- 3.8 The Planning (Scotland) Act 2019 also requires that the Development Plan Scheme is subject to a period of public consultation and engagement. A period of public consultation on Development Plan Scheme no.16 ran between 20th December 2024 and 31st January 2025. Seven responses were received to the public consultation however one of these was a duplication, therefore the actual total number of responses is six. A response was received from Homes for Scotland. Two responses were received from agents acting on behalf of Taylor Wimpey. One response from an agent acting on behalf of Macktaggart & Mickel was received. One response from an agent acting on behalf of Tarmac Trading Ltd was also received. Another response was received from a professional planning agent however no comments were included with the response. One response was received from a member of the public.
- 3.9 The response submitted on behalf of Taylor Wimpey states that whilst there is support for the timetable for LDP2, there is concern that it may not be achievable. They note delays to the plan preparation process,

which are likely to be because of significant changes to policy and legislation on plan-making. They also note that the target date for the DPEA to provide their report on the Gate Check process is April, however it is not clear whether this will be met, nor whether the Evidence Report will be deemed sufficient. The comments also note that the planning legislation introduces new requirements such as a Transport Appraisal to be ready for the proposed plan stage, and for modifications to be made to the proposed plan following consultation. There is concern over whether these have been taken into consideration in the timetable shown within the DPS. In addition, there are concerns over the LDP2 timetable in relation to ongoing discussions following the cross-party submission of a letter to the Scottish Government regarding the Council's financial challenges. Finally, the comments state that there should be more clarity on the scope of ongoing works in relation to meeting the target submission date for examination of the proposed LDP2.

- 3.10 The Council recognises the concerns raised over the timetable for the proposed plan stage and adoption of LDP2. However, the timetable is based upon a wide range of matters that need to be factored into setting a target date for adoption, including the development of topic specific assessments and appraisals such as a Transport Appraisal. The Council must meet the Scottish Government requirement to have the next LDP2 adopted by 2028. To do this, and in line with requirements to publish timetabling within an annual DPS, the Council has set a realistic and achievable deadline which factors in the studies that will be required to support the proposed plan for submission for examination. It is accepted that there could be delays that arise beyond the Council's control. A degree of flexibility has therefore been built into the proposed timetabling to allow for such situations.
- 3.11 At the time of writing, the Scottish Government has met their target deadline for a Gate Check report to be issued by April 2025. Whilst some additional work will be required in relation to this report, at this stage there is no indication that further stages in the plan preparation process or the examination and adoption of the LDP2 will be subject to any delay. As mentioned earlier in this report, should there be any significant changes that will impact upon the indicative timetable for LDP2, a further Development Plan Scheme will be published and updated timetabling. There are no changes proposed to the DPS based on these comments.
- 3.12 The response submitted on behalf of Mactaggart & Mickel stated that engagement should be carried out with landowners and developers in the local area. It was suggested that discussions and workshops should be used to do this, and this would help to improve understanding of different LDP topics such as housing, infrastructure and NPF4. It was suggested that this would also improve participation in the LDP process. In response to these comments, the Planning (Scotland) Act 2019 places a requirement upon East Lothian Council to actively engage with interested parties at various stages of the LDP preparation process. This includes landowners and housebuilders. There will be a number of future stages of the LDP preparation in which there are opportunities for landowners and

developers to engage in the process. These will be widely advertised on our website and social media platforms. As such, no amendments to the DPS 16 are considered necessary at this stage.

- 3.13 The response submitted on behalf of Tarmac Trading Ltd stated that early and ongoing engagement with large landowners in East Lothian would help with efficiency of the LDP preparation and would also enhance the quality of new allocated development. It was suggested that an amendment to the Participation Statement should be made to reflect this, with regular meetings and liaison with officers within the Planning Policy Team. In response to these comments, the LDP preparation process will involve engagement with any interested landowners, and there are a number of stages in which they can participate. This can be through online consultations but also through face to face public events which will be taking place in the coming months. In response to the suggestion for an amendment to the Participation Statement, it is considered appropriate that a change could be made to more clearly reflect the different parties that will be involved and invited to participate at various stages of LDP preparation.
- 3.14 The response from Homes for Scotland is supportive of the indicative timetable for the adoption of LDP2, and for the development industry to be aware of the stages and timescales for engaging on the next LDP2. This will help the sector to provide information for the Council to prepare the proposed plan. There is concern over the change in timetable from the previous Development Plan Scheme 15, which set a target adoption date of Q1 2026. There is also concern that the DPS lacks sufficient detail, and where there has been a change to the timetable from the previous DPS, the legislation requires the next DPS to a) identify the changes to the timetable; and (b) set out the reasons for the changes to the timetable. For these reasons Homes for Scotland believe the DPS is contrary to legislation.
- 3.15 The response also states that clarity is required on the timescales and processes for the proposed plan stage. They note the cross-party letter which the Council submitted as part of the Evidence Report on the financial challenges the Council is facing and seek additional financial resources. The response queries whether the next LDP2 can be progressed whilst discussions on this matter are ongoing.
- 3.16 A suggestion for reference to be made to “expert groups” within the DPS is made, with Homes for Scotland stating that they can act as the stakeholder for the home building industry. Further comments state that there is a need for enough time to be set aside to allow for the site assessments to be carried out following the call for sites exercise. Finally, they note the importance of establishing a housing land pipeline for the next LDP2 and are keen to continue discussions with the Council on this matter as a representative of the homebuilding industry.
- 3.17 In response to the comments from Homes for Scotland, the Council recognises that there has been a change to the LDP2 timetable from the

previous DPS. However, the Council remains on target to meet the updated timetable set out in this DPS, which would see the next LDP2 adopted 18 months in advance of the Scottish Government deadline for May 2028 for next plan adoption.

- 3.18 In relation to the cross-party letter submitted to outline the financial challenges, discussions are ongoing on this matter. Whilst there are challenges to be overcome, ongoing discussions and any outcomes from these will not delay the proposed plan stage nor the examination and adoption of the next LDP2.
- 3.19 The comments in relation to the DPS not being compliant with legislation are noted, and the suggestion for clarification on the reason for the change to timetabling from the previous DPS to be included is accepted. This will be reflected in the final Development Plan Scheme 16.
- 3.20 The Council welcomes the ongoing communication with Homes for Scotland in the LDP2 process and understands the value in relation to being a representative for a large number of home builders. The future stages of proposed plan preparation include further engagement with interested parties, which includes all Key Agencies and other key stakeholders. Therefore further opportunities to discuss important matters such as housing land supply will be available, and these will be widely advertised on the Council's website and social media platforms.
- 3.21 The response from a member of the public stated that better communication of the LDP preparation process would be helpful. It was suggested that a mail drop to each household could improve awareness and participation in the process. The issue of a quarterly magazine distribution was also raised. In response to these comments, the Development Plan Scheme sets out at what stage the public can get involved with the LDP process, and each of these stages are clearly published on the Council's website. In order to save resources, a mail drop to each household is not considered the best course of action. The LDP also has a digital mailing list which can be signed up to for receiving all updates on the stages of LDP preparation. People who are signed up to receive these updates will also receive the quarterly LDP newsletter. Based on the comments provided, no changes are deemed necessary to the Development Plan Scheme of Local Development Plan process.
- 3.22 Following consideration of responses received during the public consultation, there are no amendments required to be made to the Development Plan Scheme 16, including the proposed timetable.
- 3.23 Should there be any matters arising that require an amendment to the proposed timetabling of the next Local Development Plan, the Council will prepare and publish an updated Development Plan Scheme.
- 3.24 Following the approval of the Development Plan Scheme, the Council will, as soon as reasonably possible, send two copies to the Scottish Ministers, publish the DPS electronically on the Council website, and place a copy in all public libraries in the area to which it relates.

- 3.25 The report attached as Appendix 1 is the East Lothian Council Development Plan Scheme No.16. The DPS is also available to view online (<https://arcg.is/155HD0>).

4 POLICY IMPLICATIONS

- 4.1 None.

5 INTEGRATED IMPACT ASSESSMENT

- 5.1 The subject of this report does not affect the wellbeing of the community or have a significant impact on equality, the environment or economy.

6 RESOURCE IMPLICATIONS

- 6.1 Financial – none.
6.2 Personnel – none.
6.3 Other – none.

East Lothian Development Plan Scheme 2024

No 16 2024

Development Plan Scheme

Planning legislation requires all planning authorities to prepare a Development Plan Scheme (DPS). The DPS sets out a programme for preparing, reviewing and implementing their development plans and includes a participation statement.

East Lothian Council's DPS sets out the Council's programme for the main stages in the preparation and review of its Local Development Plan, what will be involved, and how and when people and organisations can participate.

Development Plans

The Development Plan is, collectively, the documents that will be used to determine planning decisions.

They set out the locations for development types such as new homes and businesses and protect places of value to people or wildlife.

They contain policies and proposals to guide new development. The Development Plan is required by law and is the basis for making decisions on planning applications.

Development plans

Development plans set out the long term vision for development in Scotland.

<https://www.gov.scot/policies/planning-architecture/development-plans/#:~:text=The%20development%20plan%20for%20any%20given%20area%20of,authorities%2C%20and%20are%20required%20to%20prepare%20an%20LDP>

The Development Plan

In East Lothian the Development Plan is made up of the following documents:

National Planning Framework 4 (NPF4)

NPF4 is prepared by the Scottish Government and its final version was approved in February 2023.

National Planning Framework 4

Link to framework and supporting documents

<https://www.gov.scot/binaries/content/documents/govscot/publications/strategy-plan/2023/02/national-planning-framework-4/documents/national-planning-framework-4-revised-draft/national-planning-framework-4-revised-draft/govscot%3Adocument/national-planning-framework-4.pdf>

2018 East Lothian Local Development Plan (LDP1).

This was produced by East Lothian Council and adopted in September 2018.

Local Development Plan

Development Plan for East Lothian

https://www.eastlothian.gov.uk/info/210547/planning_and_building_standards/12242/local_development_plan

East Lothian Council has also approved Supplementary Guidance and other planning policy guidance derived from and supportive of the Local Development Plan 2018.

This Supplementary Guidance is planning policy and is part of the Development Plan.

The Supplementary Planning Guidance is a material consideration in the determination of planning applications.

Powered by Esri

Programme for LDP 2

The following are the key stages in the development of LDP2 along with an estimate of when they will take place.

The timescale has changed slightly from the previous DPS with the submission of the Evidence Report and Gatecheck being moved back with subsequent impacts on the timing of the rest of the LDP. These changes were due to an additional round of engagement on the housing elements of the Evidence Report and the General Election which delayed the Evidence Report being submitted to Council.

Evidence Report

Quarter 4 2024

The Evidence Report is submitted to the Scottish Government and then progresses through an independent Gatecheck. This process aims to ensure that the right information is available to produce the LDP.

Gatecheck

Q1 2025

Proposed Plan

Q4 2025

The Proposed Plan sets out the spatial strategy for the County and the policy context through which Planning decisions will be made. As part of the development of Proposed Plan in Spring 2024 we will probably carry out a focussed call for sites. This will feed into the development of the spatial strategy. Local Place Plans have been encouraged to be submitted by the end of May 2024 for similar reasons.

Submission of Proposed Plan to Scottish Ministers

Q2 2026

After Consultation the Proposed Plan is sent to the Scottish Ministers for independent Examination. This process looks at any unresolved issues and is carried out by a reporter. They will produce an Examination report with their recommendations on the unresolved issues.

Adoption of LDP2

Q4 2026

The Council can adopt the LDP once the Examination report is received and recommended changes are made to the Plan.

Changes to the LDP timescales since the last Development Plan Scheme

Since the 2023 Development Plan Scheme the timescale for all the stages of the next LDP have moved back slightly with the Proposed Plan now being completed in late 2025 rather than in 2024.

The reason for this change is the level of work involved in the new planning process and delays caused by additional rounds of public engagement and the general election.

Supplementary and Other Planning Guidance

The 2019 Planning Act removes the opportunity for Planning Authorities to produce Supplementary Guidance (SG).

However, there are many areas of policy such as planning obligations, town centre strategies and development briefs that are important parts of the Development Plan.

Through the production of LDP2 the Council will consider how best to incorporate the areas currently covered by SG into the new LDP to ensure the continuation of their policy aims.

As part of the review of the LDP the Council will also look to review its Supplementary Planning Guidance (SPG). A full list of the current SG and SPG can be found on the Councils website.

Local Development Plan

Development Plan for East Lothian

https://www.eastlothian.gov.uk/info/210547/planning_and_building_standards/12242/local_development_plan/2

All current SG remains in force until the new LDP is approved by Council. As SPG is not policy but guidance it will not necessarily be superseded by changes to the Development Plan but may become out of date depending on the level of change made through NPF4 and LDP2 policy.

Participation Statement

The Planning etc (Scotland) Act 2019 requires that a Development Plan Scheme includes a participation statement.

The aim of the participation statement is to encourage engagement in the preparation and delivery of development plans. It sets out when consultation is likely to take place, with whom, the likely form and the steps to be taken to involve the public at large.

The planning authority is required to seek the views of the public at large as to the content of the Participation Statement. This should include seeking views on who should be engaged at different stages, and on the best approach to involving people.

This participation statement focuses on how East Lothian will progress its second Local Development Plan (LDP2). The Planning (Scotland) Act 2019 puts particular emphasis on empowering and engaging with local communities in the preparation of local

development plans, and the council is committed to adhering to these principles.

There will be many opportunities to become involved in the preparation of LDP2. These will be clearly advertised, through social media, updates on our websites, invitations to everyone who has the registered on our mailing list and advertisements in the local newspaper.

Overriding Principles of Consultation

Although the preparation of the LDP has several distinct phases there are some overriding principles that the Council will employ across the progression of the plan and as afterwards through its implementation:

- Participation in the plan-making process is open to everyone;
- The Council is aware of its responsibilities to be as inclusive as possible and will make efforts to reach out to groups not usually involved in the planning process and aim to overcome barriers to their participation;

- We will make the best use of our resources to establish and maintain meaningful engagement and liaison of officers with stakeholders throughout the different stages of the plan preparation process. This includes;
 1. individuals, local communities, employers, community councils, community planning;
 2. partners, community interest groups, key agencies, the development industry and landowners;
 3. infrastructure providers, council service providers and Scottish Government.
- Within the capacity of resources available to the Council, engage with interested parties including, key agencies, landowners and communities to enhance the quality of development proposals;
- Through the different plan stages we will include an explanation of why we are consulting, how we will be consulting and what will happen with the responses when they are received;
- We want to ensure that anyone taking the time and making the effort to actively engage in the process can do so in the knowledge that their contribution matters and can make a difference;
- It is important that people are aware of the process and of the opportunities to comment, particularly at key stages in the production of LDP 2, and we will use the media, newspaper notices and the council's website to achieve this;
- We will also employ the council's extensive area partnership network and will work through our community councils to share and distribute information;
- We will make every effort to produce clear, concise and accessible documents that are written in everyday language and which people can readily understand.
- While it is anticipated that an increasing amount of engagement and exchange of information is likely to take place via the internet, we recognise that not everyone has access to an online facility or broadband and some people may choose not to use them. We will therefore seek to adopt and offer alternative consultation and engagement methods wherever possible.

- Above all, the East Lothian Council is committed to actively engaging and involving as many communities and stakeholders in the preparation of the second Local Development Plan.

We are consulting on this Participation Statement to gather views on the best way to get people involved in the development of the LDP and to check whether there are any sectors that should be added to the consultation list.

This engagement process will continue alongside the development of the Evidence Report and Proposed Plan where the Council will undertake a wide range of engagement to gather the views of key stakeholders, hard to reach groups and the public at large.

The Scottish Governments draft Development Plan Guidance recommends that through *'early engagement, connections and efficiencies can be made with other plans and strategies, such as the Local Outcomes Improvement Plan, Locality Plans, Regional and Local Transport Strategy, Local Housing Strategy, Strategic Housing Investment Plan or Local Economic Strategy to avoid consultation fatigue'*.

The Council is following this recommendation and will where possible engage on the LDP as part of wider consultations to ensure a corporate approach to evidence gathering and decision-making and avoid the consultation fatigue mentioned above.

Powered by Esri

Preparation and engagement on the Evidence Report

Over 2023 the Council engaged in joint consultations to gather the views of communities and other stakeholders on the issues that LDP2 should address and the sufficiency of the Evidence available to prepare LDP2. The main activities were as follows:

- Workshops were held in the main towns, alongside engagement on the economic strategy, poverty plan, tree and woodland strategy and heat network strategy.
- A wide range of engagement took place with primary and secondary schools to gather their views on where they lived;
- Online engagement on issues throughout the summer;
- meetings with key agencies and other partners; and

- discussion of issues with community councils and area partnerships.

The results of this engagement are set out in the Evidence Report, Background Papers and accompanying summary of engagement report.

Powered by Esri

For the remainder of the LDP process it is intended to engage in the following manner.

Gate Check

The Gate Check is the stage in the process where it will be decided by an independent assessment whether the Council has enough information to prepare an LDP. It will be carried out by a reporter appointed by Scottish Ministers. Should the reporter decide there is sufficient information, then Council will be allowed to move to the next step in the plan process and prepare and publish their Proposed Plan.

Alternatively, additional information may be sought from those who have been involved in the discussions on issues, leading up to the

production of the Evidence Report.

Engagement will take the form of meetings or written submissions. Format and content of requests will be the responsibility of the reporters unit.

Powered by Esri

Preparation of Proposed Plan

The Proposed Plan highlights allocated areas where the different types of development should take place. It should coordinate development and service provision and an infrastructure first approach should inform its preparation and support its delivery.

New style plans are expected to be place-based: there should be greater emphasis on maps, site briefs and masterplans. When required, policy wording will develop the NPF4 national policies into the East Lothian context.

The agreed issues from the Gatecheck process will be used to develop the content of the Proposed Plan.

Engaging on the Proposed Plan

We will discuss potential policy direction with the key agencies to ensure policy alignment and deliverability.

In the Summer of 2024, as part of the development of the LDP, we have already carried out a call for sites exercise. We will assess the sites submitted as part of the development of the Proposed Plan Spatial Strategy. Any sites promoted through Local Place Plans will be assessed at this stage.

A Delivery Programme will be developed alongside the Proposed Plan and we will engage with all those who have a responsibility in progressing proposals, particularly national developments, to ensure that costs and timescales are accurately reflected in the Delivery Programme.

The Delivery Programme will be developed alongside the Proposed Plan and we will engage with all those who have a responsibility to progress proposals, particularly national

developments, to ensure that costs and timescales are accurately reflected in the Delivery Programme.

The Proposed Plan will be published for a period of at least 12 weeks during which those interested can submit letter of support or objection to the proposals.

Following on from the publication of the Proposed Plan and alongside its consultation we will engage with the following groups to get their views on the content of the plan:

- **Young People;**
- **Key agencies and other Council services;**
- **Communities where land use change may be identified; and**
- **The general public.**

Powered by Esri

Proposed Plan Consultation

The Proposed Plan's availability, content and purpose will be extensively advertised:

- **on the Council's web site, including its Consultation Hub;**

- by contacting key participants and those who have expressed a desire to engage in the plan-making process;
- through copies of the report (and/or weblinks, as appropriate) being sent to community councils, neighbouring planning authorities and key agencies;
- in the local press;
- as available for inspection in local libraries and at the planning authority's offices in Haddington;
- through public notices about how and by when representations may be made;
- The distribution of an explanatory leaflet to Community Councils, local groups and organisations with an interest in the local area, and those who have requested to be consulted;
- A consultation database for all those wishing to engage in the plan preparation process will be established and expressions of interest in participating canvassed and recorded.

In accordance with Regulations, the Council will notify owners, lessees or occupiers of premises on sites, and those of premises on neighbouring land, which the proposed LDP specifically proposes to be developed and which would have a significant effect on the use and amenity of that site or of that neighbouring land.

Local Place Plans

The Council advertised to community groups the possibility of producing a Local Place Plan. The Council has recommended that they should be prepared by the end of May 2024 so they can be taken into account in the development of the spatial and place making elements of the Proposed Plan.

Information is available of the Council website to guide communities in preparing their Local Place Plans.

LDP2 and Local Place Plans

NPF4 and LDP2

https://www.eastlothian.gov.uk/info/210547/planning_and_building_standards/12726/ldp2_and_local_place_plans/7

Modifications and Examination

The 2019 Planning Act allows the planning authority to make alterations to the Proposed Plan prior to it moving to the Examination stage.

The examination is the opportunity for the consideration by an independent reporter of any issues raised during the formal consultation on the Proposed Plan that have not been resolved through modifications.

Any ‘notifiable’ modifications will be advertised and all objectors, and those who have previously engaged in the plan process, will be notified.

The process for arranging the Examination and notifying participants will be the responsibility of the DPEA and the appointed reporter.

Any modifications will be advertised and all objectors, and those who have previously engaged in the plan process, will be notified.

The modifications and modified plan will be available for inspection in the planning authority’s offices, in public libraries and on the Council’s web site.

Plan Adoption

Once adopted the plan constitutes part of the Development Plan which, alongside NPF4 will be the basis against which to make decisions on planning applications.

Within 3 months of the plan being adopted, the planning authority must adopt and publish the associated Delivery Programme. Further consideration will be given on how to engage on the bi annual review of the Delivery Programme.

Mediation in Planning

In line with the advice set out in Circular 2/2021 (Guidance on the promotion and use of mediation in the Scottish Planning System) and the Draft 2021 Development Plan Guidance, the Council will consider the use of mediation if conflicts should result during the development of the Local Development Plan.

Opportunities for informal mediation and mediation will be tailored to local circumstances and the issues being dealt with in the plan. The extent of the need for mediation is unknown at present until the levels of future development are agreed through the Gatecheck and local areas of conflict are identified.

Comments

Should you have any views on the Participation Statement set out above then we would be grateful if you could respond through the Councils consultation hub.
